5 **THE COUNCIL'S FINANCIAL STRATEGY**

The Leader of the Council, Councillor Michael White, explained that the Council had been required to find approximately £40 million of savings over the last four years. The Leader thanked officers for their hard work in delivering these savings. Front line services, for example weekly refuse collection, had been protected while the back office had been transformed through initiatives such as Shared Services. There had also been more than 80 restructures across the Council.

The latest financial settlement meant that further cuts would be required in the coming years although this was in line with projections for this period. Specifically, £6.5 million of funding would be lost in 2014/15 with a further £9.8 million lost in 2015/16. This would of course be challenging but the Council had been very robust in meeting savings targets. The Council should also be proud of there not having been a rise in Council Tax over the last five years.

It was felt that the funding cuts in 2014/15 could be covered in Havering without major service cuts or tax increases. Work was currently underway on the next financial strategy from 2015/16. This was estimating a potential budget gap of around £60 million which would be a challenge for the new Council.

The Government austerity programme would continue until at least 2017/18 and a further Comprehensive Spending Review was expected. Government policy to ensure an average 1% annual increase in public sector pay also impacted on the Council.

The introduction of local level business rates had not generated any additional income for the Council as the Council was only allowed to keep 30% of this revenue. A proposal to pool business rates with some neighbouring Councils would however allow the minimisation of risk. The leader also felt the use of the Council pension fund to invest in the local infrastructure could be explored further.

There was a 10% shortfall from the Government on Council Tax benefits although it was thought that a revision of the Council Tax base in Havering should deliver more money. A new homes bonus of £2.4 million for 2014/15 would allow some one-off investments such as that in Harrow Lodge Park.

There had been a rise in NHS funding to support social care but this was pooled with the Clinical Commissioning Groups (CCGs). New legislation affecting education and care for people under 25 years and the care of elderly people would also have a financial impact. This was also the case with the rise in numbers of properties and pupils in Havering and the rising numbers of very elderly people would lead to a heavy demand on social care services.

In conclusion, the Leader emphasised that the Council wished to protect front line services and this was in line with the Living Ambition strategy. Efficiencies had been made in all areas of the Council, for example the partnership with London Borough of Newham. Further savings would however be needed and it would be necessary to ask which Council services did not need to continue in their current form and which could be delivered in a better way in order to keep the budget under control.

Having received the presentation from the Leader of the Council, the Overview and Scrutiny Committees noted:

1. The financial position of the Council.
2. That the report was formally consulting them on the proposed Corporate budget adjustments and that this was the opportunity to scrutinise the budget proposals.

Answers to questions raised by Members on specific items of the budget are shown in the appendix to the minutes.

Minute Item 5

APPENDIX: JOINT MEETING OF OVERVIEW AND SCRUTINY COMMITTEES, 23 JANUARY 2014, ANSWERS TO MEMBER QUESTIONS ON THE COUNCIL'S FINANCIAL STRATEGY

Questions were asked by Members on the areas shown below and answers were given by officers or Cabinet Members as follows:

1. Amount of business rates levy able to be retained – The forecast for business rates did expect a growth in the pool from the Thurrock area although this did assume that the proposed port in Thurrock went ahead.
2. Details of the Council's response to the Business Rates appeal process – This could be made available to Group Leaders.
3. Robustness of estimate for rise in Council Tax base – For the first time a material rise in the Havering Council Tax base had been seen and officers were looking at the impact of this. This would lead to a rise in demand for Council services but it was difficult at this stage to forecast the precise impact.
4. Pooled Business Rates – This system allowed each Council in the pool to reduce what they paid into Central Government. Officers would produce a briefing note on this for Members.
5. Number of grant announcements still awaited – Most grant announcements had now been received and a full table would be included within the February Cabinet report. There were now fewer grants received than in previous years.
6. Increase in overall level of risk – There was a risk from changes to the means of funding e.g. the local collection of Business Rates. It was also difficult to manage in-year issues. Efforts were however ongoing to manage and mitigate risk within the budget. All Councils were struggling with the risk of grants potentially being replaced by funding that would have to be bid for. This was a challenge for Councils throughout the country. It was also noted that the risk referred to in paragraph 3.7 of the Cabinet report related only to the current programme of savings.
7. Overspend on the Special Educational Needs (SEN) budget – This was due to an overspend on transport costs but had been offset by other savings being delivered early. This would be a pressure again next year and the transport costs were currently undergoing a full review in order to ascertain if efficiency can be improved.

8. Customer Services budget variance – The on-line portal that would allow staff savings to be made had only gone live in December rather than August 2013 due to IT problems. Restructures had now started that would lead to savings in the longer term. It was recommended that Members should use the portal to report issues such as flytips in their ward.
9. Emergency Assistance Scheme – A proposal had been put to the Corporate Management Team to carry forward any underspend to the overall emergency funding budget for next year.
10. Proposed investment in the borough by the Council pension fund – It was intended to put a sum of additional money into the pension fund in order to avoid having to increase future annual contributions by the Council. This investment would allow the pension fund to invest in Havering by e.g. buying property. This was common practice in many other pension schemes and safeguards would be in place and professional advice taken. It was important to maximise the return from the pension fund and a similar model involving a number of local Councils had funded the successful Salford Quays development near Manchester.
11. Distribution of anticipated funding gap – It was expected that the majority of the funding pressures would take place in the first two years of the next four-year cycle. This included expected reductions in Government funding and local pressures.
12. Expected value of reserves – The Council's general reserve currently stood at £11.5 million. The figure for all earmarked reserves was £48 million.
13. Details of revised arrangements for social care funding – This was the first year of Better Care funding under the current arrangements. Governance arrangements were similar for 2014/15 but funding now had to be agreed by the Health and Wellbeing Board and by NHS England. Overall funding had risen as this now included the CCG budget but more services also now had to be provided. Arrangements would become more complicated in year two as issues such as delayed discharges and seven-day working in health and social care would have to be addressed. Negotiations would be needed with the CCG on these areas and a two-year plan had to be finalised by April 2013.
14. Impact of Children and Families Bill – Officers were continuing to work through the Bill and its implications. Financial modelling was in progress and it was wished for people to stay local although would be able to receive a personal budget that they could spend anywhere. An overview and scrutiny

topic group was currently looking at this area. It was not yet possible to say however what the demand for these services would be. The cost of potentially providing education for children with special educational needs up to the age of 25 was also being worked on.

15. Member allowances – A saving of two Cabinet posts had already been agreed in the budget although this depended on Members' views after the Council election.
16. Parking income – There was in the current year a projected shortfall of approximately £400,000 across all parking budgets. Central Government was currently consulting on Council parking policies and this and this could introduce measures such as the removal of CCTV cars and a grace period on tickets. Economic factors had meant there was now less use made of car parks and seasonal factors such as wintry weather also negatively affected income.
17. Building control – Officers felt there was not enough external work to bid for to meet the quite high income targets for building control. Some staff would however still be required to discharge the Council's statutory building control functions.
18. Remand framework – The costs of children on remand had now been passed from the criminal justice system to Councils with only a small grant to cover this. The Council had spent some £557,000 on this so far this year and the Council had no control over how quickly cases reached court.
19. Housing Benefit and Council Tax support grant – This grant had been reduced across London and this funding needed to be replaced by the Council.
20. Electoral Registration – More resources were needed to cover the required Individual Electoral Registration process that was due to start in June 2014.
21. Utilities price increase – This was mainly due to inflation in electricity prices.
22. Phase 2 primary expansion – The grant allocation covered both 2014/15 and 2015/16. Although there may be a need to spend some in advance of the grant receipt this would be managed as part of the Council's cash flow and would not impact on the wider Capital programme or delay delivery.
23. Estimated school maintenance grant – Details of schools grants had been compiled for the February Cabinet report but officers would confirm the exact grant figure by e-mail.

24. Transfer of public health – It was confirmed that this was now a function of the Council led by the Director of Public Health.

25. Production of budget - The Chairman and several other Members thanked Councillor Ramsey, the Chief Executive and Council officers for their hard work in producing the budget.
