### NOTE:

This Document must be read in conjunction with the Regulation of Investigatory Powers Act Codes of Practice on:

- <u>Revised</u> Code of Practice for Covert Surveillance and Property Interference, <u>AugustDecember</u> 20184 ('CS CoP'),- (Intranet- Regulation of Investigatory Powers Act 2000)
- <u>Revised</u> Code of Practice for <u>Covert the Use of</u>-Human Intelligence Sources, <u>August December</u> 20184 ('CHIS CoP') -(Intranet- Regulation of Investigatory Powers Act 2000)
- Protection of Freedoms Act 2012 changes to provisions of the Regulation of Investigatory Powers Act 2000 (RIPA) - (Intranet- Regulation of Investigatory Powers Act 2000)

And, in respect of CCTV,

• The Home Office Surveillance Camera Code of Practice, June 2013

Copies of thiese Documents, the Application Forms and the Codes of Practice are located on the Intranet/ (Intranet- Regulation of Investigatory Powers Act 2000)

# LONDON BOROUGH OF HAVERING POLICY & PROCEDURES - REGULATION OF INVESTIGATORY POWERS ACT 2000 (RIPA)-

## A. <u>Background</u>

The Human Rights Act requires the Council, and organisations working on its behalf, to have respect for the private and family life of citizens. However, in rare cases, it may be necessary for the Council to act covertly in ways that may interfere with an individual's rights.

The Regulation of Investigatory Powers Act 2000 ('RIPA') provides a mechanism for authorising covert surveillance and the use of "covert human intelligence sources" (CHIS). It aims to ensure that any interference with an individual's privacy is **necessary** and **proportionate**, and for the purpose of the protection of both the public interest and the human rights of individuals.

It is important to note that the legislation does not only affect directly employed Council staff. Where external agencies are working for the London Borough of Havering, carrying out the Authority's statutory functions, the Authority remains liable for compliance with its duties. It is essential that all external agencies comply with the regulations, as they are contractually obliged to do so. Therefore, work carried out by agencies on the council's behalf should be properly authorised by one of the Council's designated <a href="Authorising Officers">Authorising Officers</a>.

### If the correct procedures are not followed:

- · evidence could be thrown out
- a complaint of maladministration could be made to the Ombudsman
- the Council could be the subject of an adverse report by the <u>Investigatory</u> Powers Commissioner's Office (IPCO)of the Surveillance Commissioners
- a claim could be made leading to the payment of compensation by the Council
- there could be adverse publicity which could have a serious impact on the Council's reputation

## B. What RIPA does and doesn't do

### RIPA does

- require <u>authorisation</u> of <u>directed surveillance</u>
- prohibit intrusive surveillance
- require <u>authorisation</u> of the conduct and use of a <u>CHIS</u>,
- · require safeguards for the use of CHIS.

RIPA does not make unlawful conduct which is otherwise lawful, and it does not prejudice any existing power to obtain information by any means not involving conduct that may be authorised under this Act. For example, it does not affect the Council's current powers to obtaining information via the DVLA, or to get information from the Land Registry as to the owner of property.

RIPA does provide valuable legal protection against claims and complaints and therefore compliance with its requirements and these procedures are mandatory for all services and staff.

Formatted: Font: Bold, Underline,

### C **Procedure**

Officers should consider each of these points when starting and conducting an investigation.

- 1. Ensure complaint is recorded and kept up-to-date on recording system.
- 2. A full note of evidence must be maintained.
- Ascertain whether the investigation being conducted is one that will or will not likely involve covert surveillance of any person or which may reveal confidential personal information about anyone. If covert surveillance is likely or intended to result in the acquisition of confidential or legally privileged information, the special rule applies (see below.

- Ascertain whether a Covert Human Intelligence Source (CHIS) is necessary. Apply 4. the special rule if the CHIS is under the age of 18 or is a vulnerable individual or when knowledge of legally privileged or confidential information is likely to be acquired. If the special rule is applied this must be the subject of prior consultation, with the Monitoring Officer or the -Deputy Monitoring Officer.
- Before starting covert surveillance or using CHIS, obtain a number and written 5. authorisation from the relevant officer(s) (see Flow Chart and Forms).
- Surveillance during an investigation conducted by one of the above people must be 6. authorised by another authorised person.
- 7. Authorising Officers must not grant or renew authorisations unless satisfied that the requirements are met (see Grounds for Authorisation).
- 8. An application for authorisation must be made on the relevant form. The forms are available from the intranet – search for 'RIPA'. The relevant forms are:

Surveillance	CHIS
Authorisation to <b>conduct</b> Directed Surveillance	Authorisation to <b>conduct</b> CHIS
Authorisation to <b>renew</b> Directed Surveillance	Authorisation to <b>renew</b> CHIS
Authorisation to cancel Directed Surveillance	Authorisation to cancel CHIS
Review of Directed Surveillance Authority	Review of Conduct and Use of a CHIS

- 9. Urgent cases There is now no power to grant urgent oral authorisations. Written authorisation from a Justice of the Peacemagistrate is required using the standard procedure.
- 10. Officers should ensure that the officer granting the authorisation regularly reviews it. Officers should cancel authorisation where surveillance is no longer necessary or proportionate to the investigation in progress.

Formatted: Font: 12 pt Formatted: Font: 12 pt

Formatted: Indent: Left: 0.95 cm. No bullets or numbering, Tab stops: Not at 0.95 cm

Formatted: Font: 12 pt

- 11. Authorising Officers should ensure that authorisations are renewed and/or cancelled before they expire.
- 12. The officer responsible for authorisation of the investigation must immediately inform the Public Protection Manager as the Co-ordinating Officer by e-mail of the grant, renewal or cancellation of all authorisations
- 13. Authorising Officer must ensure that all materials are secured and originals sent to the Public Protection Manager (as the Co-ordinating Officer), and disposal of expired material is timely. Officers are responsible for continuously maintaining RIPA standards.

The following time limits apply to an authorisation:

Type of authorisation	Expiry Period
Covert directed surveillance	A maximum of 3 months, reviewed regularly, and timely cancellation when appropriate
CHIS	A maximum of 12 months (44 months if CHIS is under 18), reviewed regularly, and timely cancellation when appropriate

### **D** Types of Surveillance

### "Surveillance" includes

- monitoring, observing, listening to persons, their movements, conversations, other activities or communications
- recording anything monitored, observed or listened to in the course of surveillance
- surveillance, by or with, assistance of a surveillance device.

Surveillance can be overt or covert.

### **Overt Surveillance**

Most of the surveillance carried out by the Council will be done overtly – there will be nothing secretive, clandestine or hidden about it. In many cases, officers will be behaving in the same way as a normal member of the public (e.g. in the case of most test purchases), and/or will be going about council business openly (e.g. a market inspector walking through Romford Market). An immediate response may be appropriate in certain instances e.g. if an occurrence is witnessed action could follow to see what if anything takes place. Similarly, surveillance will be overt if the subject is aware it will happen (e.g. where a noisemaker is warned that noise will be recorded if the noise continues, or where a licence is issued subject to conditions and the licensee is told that officers may visit without identifying themselves to check that the conditions are being met).

## **Covert Surveillance**

Surveillance is Covert Surveillance if, and only if, it is carried out in a manner calculated to ensure that persons subject to the surveillance are unaware it is taking place. (Section 26(9)(a) of RIPA.)

RIPA regulates two types of covert surveillance (<u>Directed Surveillance</u> and <u>Intrusive Surveillance</u>) and the use of <u>Covert Human Intelligence Sources</u> (CHISs):

### **Directed Surveillance**

Directed Surveillance is surveillance which

- is covert surveillance; and
- is not <u>intrusive surveillance</u> (see definition below) <u>the Council must not carry out intrusive surveillance</u>.
- is not carried out as an immediate response to events which would otherwise make seeking authorisation under the Act unreasonable e.g. spotting something suspicious and continuing to observe it; [CS CoP 32.323] and
- it is undertaken for the purpose of a specific investigation or operation in a manner likely to obtain private information about an individual (whether or not that person is specifically targeted for purposes of an investigation). [CS CoP 2.4 and 3.1];

<u>Private information</u> in relation to a person includes any information relating to his/her private or family life. The fact that covert surveillance occurs in a public place or on business premises does not mean that it cannot result in the obtaining of private information about a person. RIPA does not apply in situations involving the general monitoring and use of town centre CCTV. These cameras are overt and so cannot generally be used for covert monitoring.

Prolonged surveillance targeted on a single person may very well result in the obtaining of private information. Similarly, although overt town centres CCTV cameras do not normally require authorisation, if the camera is tasked for a specific operation, which involves prolonged surveillance on a particular individual, authorisation may well be required. The way a person runs their business may also reveal information about his or her private life.

Council Officers can carry out "Directed Surveillance" IF, AND ONLY IF, the RIPA authorisation procedures are followed.

### **Intrusive Surveillance**

- is covert
- relates to residential premises and private vehicles; and
- involves the presence of an individual on the premises or in the vehicle; or is carried out by a surveillance device. Lif a surveillance device is not on the premises or in the vehicle it is not intrusive, unless it consistently provides information of the same quality as if it was on the premises or in the vehicle
- or relates to premises used for the purpose of legal consultations
- can be carried out only by police and other law enforcement agencies

Council Officers must not carry out intrusive surveillance.

### Examples of different types of Surveillance

Surveillance will fall into one of four categories:

Type of Surveillance	Examples
Overt	<ul> <li>Uniform Police Officer on patrol.</li> <li>Signposted Town Centre CCTV Cameras (in normal use)</li> </ul>
	Recording noise coming from premises after the occupier has been warned that this will occur if the noise persists.
	Most test purchases (where the officer behaves no differently from a normal member of the public).
Covert, but may not require authorisation	Hidden CCTV camera focused on a railway bridge which has just been cleared of graffiti, where it is expected that taggers will target the bridge. However if collateral information is likely to be obtained then RIPA authorisation is necessary.
<u>Directed</u> – requires a RIPA authorisation.	Officers follow an individual over the course of the day, to establish whether he is working when claiming benefit
	Test purchases where the officer has a hidden camera recording information which might include information about the private life of a small shop-owner, e.g. the way they run their business.
Intrusive - Council cannot do.	Planting a listening device (bug) in a person's home or in their private motorcar.

**Directed and Intrusive Surveillance is subject to the <u>Revised</u> Code of Practice for Covert Surveillance and Property Interference-, <u>August December</u> 20184 <b>issued under s 71 of RIPA.** 

The Protection of Freedoms Act 2012 introduced new requirements concerning the use of directed surveillance. Local authorities can now only grant an\_authorisation under RIPA for the use of directed surveillance where the local authority is investigating particular types of criminal offences. These are criminal offences which attract a maximum custodial sentence of six months or more or criminal offences relating to the underage sale of alcohol or nicotine products like tobacco. A local authority may not authorise the use of directed surveillance under RIPA to investigate disorder that does not involve criminal offences or to investigate low-level offences which may include, for example, littering, dog control and fly-posting.

However, RIPA does *not* prevent the Council from conducting other investigations, even if covert surveillance techniques are used.

If RIPA does not apply, the Council must follow procedures similar to RIPA and ensure that any surveillance pursues a legitimate aim and is necessary, proportionate and

<u>justifiable in all the circumstances of the case. This will ensure compliance with data</u> protection legislation and the Human Rights Act 1998, in particular, Article 8.

### Covert surveillance of Social Networking Sites (SNS) and On-line Accounts

Reference should be made to paragraph 288 of the OSC Procedures and Guidance 2016.

<u>T</u>the fact that digital investigation is routine or easy to conduct does not reduce the need for authorisation.

Care must be taken to understand how the SNS being used works. –Authorising• Officers must not be tempted to assume that one service provider is the same as another or that the services provided by a single provider are the same.

Whilst it is the responsibility of an individual to set privacy settings to protect unsolicited access to private information, and even though data may be deemed published and no longer under the control of the author, it is unwise to regard it as "open source" or publicly available; the author has a reasonable expectation of privacy if access controls are applied. In some cases data may be deemed private communication still in transmission (instant messages *for* example). Where privacy settings are available but not applied the data may be considered open source and an authorisation is not usually required. Repeat viewing of "open source" sites may constitute directed surveillance on a case by case basis and this should be borne in mind.

The RIPA regime was introduced before the rise of electronic media such as Twitter and Facebook where individuals voluntarily put lots of personal information 'on-line' with varying degrees of public accessibility. Such sites can be a very useful source of research for an investigator. The applicability of RIPA to such information sources is a developing area, but currently the Council will follow the following rules:

- a) Casual or occasional checking of an individual's on-line account which is open to all is regarded as akin to walking past a person's house or shop and does not need authorisation under RIPA.
- b) Targeted, on-going checking of an 'open' account is effectively the electronic equivalent of carrying out physical surveillance of an individual. While currently there isn't a definitive legal ruling on the issue, in order to prevent possible challenge to any evidence gained in this manner, a RIPA authorisation should be obtained.
- c) Accessing an individual's account by becoming that person's 'friend', even if there is no intention to have additional contact, requires a RIPA authorisation.
- d) Any access of an account which will involve an on-going dialogue with the targeted individual is forming a relationship with the individual and requires a CHIS authorisation.

### **Children and Young People's Services**

For cases of suspected abuse, directed covert surveillance, may be an appropriate adjunct to ordinary social care practice including family visits. Where it is suspected that abuse amounting to a crime is being carried out, and where no other means can be

Formatted: Indent: First line: 0 cm

Formatted: Font color: Red

found to confirm the position, a Multi-Agency Strategy Meeting should be convened, and the decision to recommend covert surveillance should be considered against the tests above, formally recorded, and then passed to an authorising officer in the local authority or the police.

For school admissions, covert surveillance is almost certainly not an option because of the need to identify a criminal offence with a possible 6 month custodial sentence and questions about the proportionately of such actions. Information can be acquired from parents and carers to demonstrate residence through overt means, such as the production of utility bills, health registrations, mortgage or rent documentation, Council tax records, and membership of libraries, churches, or other local organisations. In cases where a family has broken up, the main residence of the child should be confirmed by court documents.

# E. <u>Conduct and Use of a Covert Human Intelligence Sources (CHIS)</u> (e.g. informers, undercover agents)

### Who is a CHIS?

Under the 2000 Act, a person is a CHIS if:

- a) he establishes or maintains a personal or other relationship with a person for the covert purpose of facilitating the doing of anything falling within paragraph b) or c):
- b) he covertly uses such a relationship to obtain information or to provide access to any information to another person; or
- c) he covertly discloses information obtained by the use of such a relationship or as a consequence of the existence of such a relationship.

A relationship is established or maintained for a covert purpose if and only if it is conducted in manner that is calculated to ensure that one of the parties to the relationship is unaware of the purpose.

The provisions of RIPA are not intended to apply in circumstances where members of the public volunteer information to the council as part of their normal civic duties, or to contact numbers set up to receive information.

### Use of a CHIS

The Council is extremely unlikely to deploy a CHIS and any officer contemplating such a step should consult the Monitoring Officer or Deputy Monitoring Officer within Legal Services.

### What must be authorised

The Conduct or Use of CHIS requires authorisation.

- Conduct of a CHIS = Establishing or maintaining a personal or other relationship with a person for the covert purpose of (or is incidental to) obtaining and passing on information.
- Use of a CHIS = Actions inducing, asking or assisting a person to act as a CHIS.

The Council can use a CHIS IF, AND ONLY IF, RIPA procedures are followed.

### Juvenile Source

Special safeguards apply to the use or conduct of juvenile sources (those under 18 years old). On no occasion can a child under 16 years of age be authorised to give information against his or her parents [see CHIS CoP 4.24]. Only the Chief Executive or, (in his/her absence) the person acting as the Head of Paid Service Director of Legal and Governance can authorise the use of Juvenile Sources. The duration of the authorisation is fourene months only.

### Vulnerable individuals

A Vulnerable Individual is a person who is or may be in need of community care services by reason of mental or other disability, age or illness and who is or may be unable to take care of himself or herself, or unable to protect himself or herself against significant harm or exploitation. A vulnerable individual should only be authorised to act as a source in the most exceptional circumstances. The Chief Executive or, (in his/her absence) the person acting as the Head of Paid Service and the Director of Legal and Governance are the only persons who can authorise the use of a vulnerable person as a CHIS.

### Test Purchases

Carrying out test purchases will not normally require the purchaser to establish a relationship with the supplier with the covert purpose of obtaining information, and therefore the purchaser will not normally be a CHIS. For example, authorisation would not normally be required for test purchases carried out in the ordinary course of business (e.g. walking into a shop and purchasing a product over the counter). By contrast, developing a relationship with a person in the shop to obtain information about the sellers suppliers of an illegal product (e.g. -illegally imported wild meat) is likely to require authorisation as a <a href="CHIS">CHIS</a>. Similarly, using hidden recording devices to record what is going on in the shop (e.g. a hidden CCTV Camera) may require <a href="authorisation">authorisation</a> as <a href="directed surveillance">directed surveillance</a>. A combined authorisation can be provided if a CHIS is carrying out directed surveillance.

### **Noise**

Persons who complain about excessive noise, and are asked to keep a noise diary, will not normally be a CHIS, as they are not required to establish or maintain a relationship for a covert purpose. Recording the level of noise (e.g. the decibel level) will not normally capture private information, and therefore does not require authorisation.

However, if the Council serves notice on the owner/occupier of the premises and the source of the noise is a third party, authorisation under RIPA may be required. The investigation may (i) be covert in relation to that third party and (ii) may reveal private information about them.

### F. Authorisation

<u>Directed surveillance</u> and the use of a <u>CHIS</u> can bey carried out only if authorised, and only within the terms of the authorisation. <u>Appendix A</u> provides a flow chart of process from application to record management.

### **Authorising Officers:**

Authorisations can only be given by Authorising Officers, listed in Appendix B.

Only the Chief Executive or, (in his/her absence) the person acting as the Head of Paid Service can authorise covert surveillance if <u>legally privileged or confidential information</u> is likely to be acquired or when a <u>juvenile or vulnerable person</u> is to be used as a source.

Authorisation under RIPA is quite separate from delegated authority to act under the Council's Scheme of Delegation and internal directorate Schemes of Management. RIPA authorisations are for specific investigations only and must be cancelled once the specific surveillance is complete or applied to be reviewed when about to expire if the investigation is continuing.

The Authorising Officer should not just "sign off" an authorisation, but must give **personal consideration** to the **necessity** and **proportionality** of the proposed action and any **collateral intrusion** which may result, and must personally ensure that the surveillance is reviewed and cancelled.

### **Application Forms:**

Applications for authorisation should be made using standard RIPA forms. Forms seek to ensure that criteria for RIPA are fully considered.

London Borough of Havering currently uses the following Home Office forms (available from the Intranet / RIPA)

- Application for Authority for Directed Surveillance
- Application for Renewal of Directed Surveillance Authority
- Cancellation of Directed Surveillance
- Review of Directed Surveillance Authority
- · Application for Authority for Conduct and Use of a CHIS
- · Application for Renewal of Conduct and Use of a CHIS Authority

Formatted: Font: Bold
Formatted: Font: Bold
Formatted: Font: Bold

Formatted: Font: Bold

- Cancellation of Conduct and Use of a CHIS
- Review of Conduct and Use of a CHIS
- JP approval form

### **Grounds for Authorisation**

See also section 28(3) of the RIPA Act 2000

<u>Directed Surveillance</u>, or the <u>Conduct</u> and <u>Use</u> of a <u>CHIS</u> can be authorised by the Council <u>only</u> on the following grounds:

For the prevention or detection of crime.

Before seeking authorisation, the applicant is to contact the Public Protection Manager as Co ordinating Officer (x2771) for a Unique Reference Number (URN). Certain information will be required at this stage to be input onto a corporate log of RIPA activities

### Assessing the Application Form.

When considering whether to authorise surveillance an Authorising Officer must

- Consider the relevant Code of Practice
- Ensure that the exact nature of the surveillance is fully described so that the Authorising Officer is fully aware of what he/she is being asked to authorise.
- Satisfy him/herself that the authorisation is necessary in the circumstances of the particular case on the grounds of the prevention or detection of crime, and also
- Satisfy him/herself that the surveillance is proportionate to what it seeks to achieve [CS CoP 43.63 43.7]. In assessing whether or not the proposed surveillance is proportionate, the Authorising Officer will consider other appropriate means of gathering information. In the case of the CHIS, authorisations, (see also CHIS CoP 3.2 3.5).
  - Proportionate involves balancing the intrusiveness of the activity on the target and others who might be affected by it against the need for the activity in operational terms.
  - The activity will not be proportionate if it is excessive in the circumstances of the case.
  - The activity will not be proportionate if the information which is sought could reasonably be **obtained by other less intrusive means**. e.g. if the evidence could have been gathered through other methods of investigation, such as unannounced inspections, then these less intrusive and non-covert methods should have been exhausted first.
  - Proportionate also involves balancing the Human Rights of the subject of the surveillance against the seriousness of the offence under investigation.

If there is an alternative practicable means of carrying out the surveillance, which is less intrusive, then the surveillance is neither necessary nor proportionate and should not be authorised.

 Take into account the risk of intrusion into the privacy of persons other than the specified subject of the surveillance (Collateral Intrusion). Measures must be **Formatted:** Normal, Indent: Left: 1.27 cm

Formatted: Font: Bold, Font color:

- .. . -

Formatted: Font color: Red

taken wherever practicable to avoid collateral intrusion [see CS CoP <u>34</u>.<u>118</u> – <u>43</u>.161].

- Set a date for review of the authorisation
- Ensure that the Public Protection Manager is sent the top copy of the authorisation for filing centrally.

### Additional Factors when Authorising a CHIS

In addition, when authorising the conduct or use of a CHIS the Authorising Officer must be

- be satisfied that the conduct and/or use of the CHIS is proportionate to what is sought to be achieved and
- be satisfied that appropriate arrangements are in place for the management and oversight of the CHIS;
- consider the likely degree of intrusion of all those potentially affected.
- consider any adverse impact on community confidence that may result from the use or conduct or the information obtained.
- ensure records contain statutory particulars and are not available except on a need to know basis.

### **Urgent Authorisations**

Until April 2013 it was possible in exceptional circumstances to give urgent authorisations orally. This practice is now prohibited by changes introduced by the Protection of Freedoms Act 2012. All authorisations (grants and renewals) have to be made in writing by a magistrate Justice of the Peace after completion of the Council's internal process. The Magistrates Court has provisions for contacting an out-of-hours duty magistrate – details are held at Romford Police Station.

### Immediate Responses

There are certain events situations which require an immediate response where it would be impracticable to obtain an authorisation. Such surveillance is not deemed to be directed surveillance for the purposes of <a href="RIPAthe-2000-Act">RIPAthe-2000-Act</a>. An example would be Council officers needing to covertly observe an activity that they come across during their routine duties.

### **Duration**

The authorisation period for Directed Surveillance is 3 Months and 12 Months for a CHIS (except for a CHIS for a juvenile which is 41 months).

### Review and Cancellation

The Authorising Officer must review authorisations frequently, and must cancel an authorisation promptly if he/she become satisfied that the surveillance is no longer required or appropriate. An authorisation must be cancelled in all cases, it cannot be left to expire at the end of the authorisation period. When cancelling the authorisation the Authorising Officer is required to consider whether the surveillance was effective,

necessary, and met its objectives. Cancellations must be made using the cancellation form [CS CoP 5.227.30 — 5.2432].

### Renewals

Authorisations can be renewed in writing when the authorisation period expires. The Authorising Officer must consider the matter afresh, including taking into account the benefits of the surveillance to date, and any collateral intrusion that has occurred.

The renewal will begin on the day when the authorisation would have expired and will last for a further 3 months [CS CoP <u>5.18</u>7.27 - 29]. Renewals can no longer be renewed orally in urgent cases <u>and have to be approved by a Justice of the Peace</u>.

### **G** Record maintenance

The Council must keep a detailed record of all authorisations, renewals, and cancellations [CS CoP Chapter 8]

### Records maintained by Requesting Officer and Centrally

The following documents must be securely retained by the Requesting Officer and <u>originals</u> sent to the Public Protection Manager as the Co Ordinating Officer for recording centrally:

- A copy of the application and a copy of the authorisation together with any supplementary documentation and notification of the approval given by the Authorising Officer;
- A record of the period over which the surveillance has taken place;
- The frequency of reviews prescribed by the Authorising Officer; Reviews can be undertaken earlier in order to gain an understanding of what is working in practice.
- A record of the result of each review of the authorisation;
- A copy of any renewal of an authorisation, together with the supporting documentation submitted when the renewal was requested;
- The date and time when any instruction was given by the Authorising Officer.
- The date and time when any instruction was given by the Authorising Officer.
- A copy of the order approving or otherwise the grant or renewal of an authorisation from a Justice of the Peace.
- The Council shall retain records for a period of at least three years (and usually for up to five years) from the ending of the authorisation [CS CoP 8.2 & 8.5]. The Investigatory Powers Commissioner's Office (IPCO) of the Surveillance Commissioners (OSC) can review the council's policies and procedures, and individual authorisations. IPCOOSC usually provide notice before an inspection, but can arrive unannounced.

Copies of authorisations, renewals and cancellations are discoverable in legal proceedings. If proper records are not maintained, evidence gathered may be inadmissible.

**Formatted:** Indent: Left: 1.9 cm, No bullets or numbering, Tab stops: Not at 1.9 cm

### H. Single Point of Contact (SPOC)

As of 5 January 2004, access to communication data to further investigatory work (in areas like trading standards, environmental health, benefits fraud and planning functions) fell under the RIPA 2000. Each Authority is required to establish a SPOC to interface with the many communication service providers (Telecoms, Internet and Postal companies) who hold this data.

The Council's SPOC is the Public Protection Manager, in collaboration with the National Anti-Fraud Network (NAFN).

### I. Oversight

In accordance with recommended best practice, the Council has appointed its Monitoring Officer and Deputy Director of Legal & Governance Kathryn Robinson Daniel Fenwick (daniel.fenwick@onesource.co.ukKathryn.robinson@onesource.co.uk) as the Senior Responsible Officer for the purposes of RIPA. This officer is responsible for,

- the integrity of the process in place within the Council to authorise directed and intrusive surveillance and interference with property;
- compliance with Part II of the 2000 Act, Part III of the 1997 Act
- and with the relevant codes;
- reporting any errors in complying with the requirements of RIPA to the IPCO (in accordance with section 235(6) of the Investigatory Powers Act 2016) as soon as reasonably practicable, and no later than ten working days;
- engagement with the Commissioners and inspectors when they conduct their inspections;
- where necessary, overseeing the implementation of any post inspection action plans recommended or approved by a Commissioner and
- ensuring that all authorising officers are of an appropriate standard in light of any recommendations in the inspection reports prepared by the Office of Surveillance Commissioners

The Senior Responsible Officer will:

- Report to the Council's Governance Committee at least once a year on the use of RIPA and reviewing the Council's policy
- Report to the Leader and the Lead Member and oneSource Management (on use under functions delegated to oneSource) on at least once a year quarterly basis to ensure that it is being used consistently with this e local authority's policy and these procedures and that the policy and procedures remains fit for purpose.

### J. Training

- Training is required and mandatory for all Council Authorisingers Officers and staff involved with any aspect of investigation and surveillance.
- Home office accredited training is mandatory for the Council's SPOCs

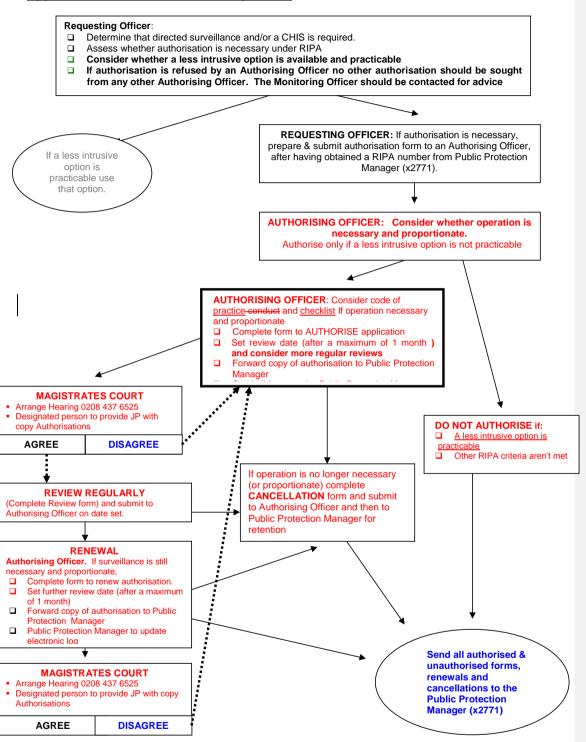

**Field Code Changed** 

Formatted: Font:

• It is also the responsibility of managers to ensure that appropriate staff receive the appropriate training and guidance on RIPA-Act 2000.

Further information and Application Forms are available on the Intranet - search for 'RIPA'.

### Appendix A Flow chart of RIPA process

### Appendix B **Authorising Officers**

Authorising officers are listed below. The Monitoring Officer will keep this list under review and will amend it in response to any staffing or service changes. must be "an assistant chief officer or investigations manager". The Aauthorising officers should not be directly involved in the investigation. Only the Chief Executive or the Director of Legal and Governance can authorise the use of a vulnerable person or child as a CHIS.

Council-wide authorisers

Special Rule for CHIS Chief Executive and in his/her absence Director of Legal and Governance Use of a child under 18 or a Vulnerable Person to be a CHIS.

Operations where confidential information may be obtained. Confidential informations includes matters subject to legal privilege, confidential personal information or confidential journalistic material. This includes information relating to the physical or mental health or to spiritual counselling or assistance given or to be given to a person. (CS CoP, Chapter 4). The Chief Executive (as Head of Paid Service) is the only person who can authorise such surveillance.

12. Authorising erofficers for Directed Surveillance and CHIS are:

a. Chief Executive (for all applications)

b. Director of Legal & Governance

be. Assistant Director of Environment (subject to the special rule (see below), for allapplications)

Managing Director, Director of Finance and Head of Assurance for oneSource (subject to the special rule (see below), for , in so far applications, relatinge to oneSource Services only)

### 2. Special rule

If directed surveillance is likely or intended to result in the acquisition of confidential orlegally privileged information, only the Chief Executive or, (in his/her absence) the person acting as the Head of Paid Service can authorise it.,

If the acquisition of confidential or legally privileged information is intended, it should only be authorised if there are exceptional and compelling circumstances justifying it.

If a juvenile or vulnerable person is to be used as a CHIS, only the Chief Executiveor, (in his/her absence) the person acting as the Head of Paid Service can authorise it.

If knowledge of legally privileged or confidential information is likely to be acquired if a CHIS is used, only the Chief Executive or, (in his/her absence) the person acting as the Head of Paid Service can authorise it.

A CHIS should never be deployed for deliberately acquiring legally privilegedinformation.

Great care must be taken, and enhanced safeguards must be applied, to the handling, minimising access, storage, retention and destruction of confidential or legally privileged information in accordance with human rights and data protection legislation.
