

### **Borrowing in advance of need**

Borrowing is primarily required to finance the council's capital expenditure programme and is long term in nature. Views of interest rate movements and moreover rising interest rate risk must be managed. This may result in borrowing in advance of need to secure long term finance on advantageous terms and reduce financing risk when capital will be required.

The Council will not borrow more than or in advance of its needs purely in order to profit from the investment of the extra sums borrowed. Any decision to borrow in advance will be within forward approved Capital Financing Requirement estimates, and will be considered carefully to ensure that value for money can be demonstrated and that the Council can ensure the security of such funds.

There are attendant risks associated with investments but the council has taken measures to substantially reduce the level of credit risk from holding investments and manage the carry cost (the difference between borrowing costs and investment yield)

Officers will monitor the interest rate market and adopt a pragmatic approach to changing circumstances. Risks associated with any borrowing in advance activity will be subject to proper appraisal and subsequent reporting through the mid-year or annual reporting mechanism
