The subject matter of this report deals with the following themes of the Health and Wellbeing Strategy

- Theme 1: Primary prevention to promote and protect the health of the community and reduce health inequalities
- Theme 2: Working together to identify those at risk and intervene early to improve outcomes and reduce demand on more expensive services later on
- Theme 3: Provide the right health and social care/advice in the right place at the right time
- Theme 4: Quality of services and user experience

SUMMARY

Health and Wellbeing Board members attended two workshop sessions to consider priorities for a new Health and Wellbeing Strategy for 2019/20 – 2023/24 which led to a draft strategy being produced. The Board agreed that a public consultation should take place over the summer to seek the views of organisations and local residents. All Health and Wellbeing Board members agreed to promote the consultation to their employees, volunteers and clients.

The consultation was subsequently launched on 1 August 2019 and closed on 28 August. The online version was published on Citizen Space, a web-based consultation tool. 218 responses were received

The Board will be attending a further workshop session to consider feedback from the consultation and agree the priorities for the final version of the strategy.

RECOMMENDATIONS

HWB members to agree that, following the workshop session when feedback from the consultation will be considered and the priorities for the final version of the strategy agreed, Chairman's action may be taken to approve final versions of

- (a) the consultation report, and
- (b) the Health and Wellbeing Board Strategy 2019/20 – 2023/24
