There was currently no plans by the CCG to re-commission the service – which potentially had implications for vulnerable pregnant women, especially, as pregnancy is often a time that domestic violence commences for the first time.

Age UK Havering Safe at Home Service

The service, which was commissioned by the Council and was provided by Age UK, provided a 'target hardening' (securing of windows and doors) service, and remained free to victims of domestic violence. For the year to date forty-six homes of domestic violence victims had been target hardened.

Havering, along with Newham, Redbridge, Waltham Forest, Tower Hamlets, Hackney and Barking & Dagenham had contributed £20,000 each to funding the Centre. The service provided free confidential specialist help for women and girls who had been raped or experienced any other form of sexual violence. Independent Domestic Abuse Programme (IDAP)

IDAP was a group work programme specially designed for men who have been abusive to spouses, partner and ex-partners. It was designed to challenge offender's patterns of thinking that underpin and maintained their violent and abusive behaviour.

Women's Safety Officer – Probation

The Women's Safety Officer provided contact and support to spouses and partners of men who are undertaking the IDAP. The Officer supported forty one victims of domestic violence in 2012-13. Probation had identified a lack of funding as the main risk to the continuation of the post.

MARAC

The Multi Agency Risk Assessment Conference (MARAC) safeguards adult male and female victims of domestic violence and their children, manage offender behaviour and safeguard staff working with families. Since 2009 there has been a significant increase in the number of cases heard at MARAC.

All London Councils projects were subject to funding. The current projects are funded from 2013 to 2015.

The Charity Relate had a network of counsellors trained for domestic violence referrals. The organisation does not receive funding from the council and the majority of clients self-refer or were recommended by other agencies. Most referrals are self-funded with the exception of a few that are funded through children's social care. For year 2012-13 Relate counselled one hundred and thirty nine adult clients.
