Protocol for members of the public wishing to report on meetings of the London Borough of Havering

Members of the public are entitled to report on meetings of Council, Committees and Cabinet, except in circumstances where the public have been excluded as permitted by law.

Reporting means:-

- filming, photographing or making an audio recording of the proceedings of the meeting;
- using any other means for enabling persons not present to see or hear proceedings at a meeting as it takes place or later; or
- reporting or providing commentary on proceedings at a meeting, orally or in writing, so that the report or commentary is available as the meeting takes place or later if the person is not present.

Anyone present at a meeting as it takes place is not permitted to carry out an oral commentary or report. This is to prevent the business of the meeting being disrupted.

Anyone attending a meeting is asked to advise Democratic Services staff on 01708 433076 that they wish to report on the meeting and how they wish to do so. This is to enable employees to guide anyone choosing to report on proceedings to an appropriate place from which to be able to report effectively.

Members of the public are asked to remain seated throughout the meeting as standing up and walking around could distract from the business in hand.

What is Overview & Scrutiny?

Each local authority is required by law to establish an overview and scrutiny function to support and scrutinise the Council's executive arrangements. Each overview and scrutiny sub-committee has its own remit as set out in the terms of reference but they each meet to consider issues of local importance.

The sub-committees have a number of key roles:

1. Providing a critical friend challenge to policy and decision makers.
2. Driving improvement in public services.
3. Holding key local partners to account.
4. Enabling the voice and concerns to the public.

The sub-committees consider issues by receiving information from, and questioning, Cabinet Members, officers and external partners to develop an understanding of proposals, policy and practices. They can then develop recommendations that they believe will improve performance, or as a response to public consultations. These are considered by the Overview and Scrutiny Board and if approved, submitted for a response to Council, Cabinet and other relevant bodies.

Sub-Committees will often establish Topic Groups to examine specific areas in much greater detail. These groups consist of a number of Members and the review period can last for

Health Overview & Scrutiny Sub-Committee, 8 October 2015

anything from a few weeks to a year or more to allow the Members to comprehensively examine an issue through interviewing expert witnesses, conducting research or undertaking site visits. Once the topic group has finished its work it will send a report to the Sub-Committee that created it and will often suggest recommendations for the Overview and Scrutiny Board to pass to the Council's Executive.

Terms of Reference:

Scrutiny of NHS Bodies under the Council's Health Scrutiny function

About the Amy Winehouse Foundation

(Taken from the Foundation website)

Amy and her music touched the lives of millions, and when she tragically passed away on July 23rd 2011, aged only 27, it didn't just break the hearts of her family and close friends – it had a huge impact all over the world.

That's why her family felt it was important to keep her memory alive. On the 14th September of that year, they set up the Amy Winehouse Foundation – on what would have been Amy's 28th birthday. Amy was passionate about helping young people, and fully understood the problems that many of them face.

The Amy Winehouse Foundation works to prevent the effects of drug and alcohol misuse on young people. We also aim to support, inform and inspire vulnerable and disadvantaged young people to help them reach their full potential.

The Foundation's work focuses on three core areas

- 1. To inform and educate young people about the effects of drug and alcohol misuse, as well as to support those seeking help for their problems and those needing on-going support in their recovery**
- 2. To provide support for those most vulnerable, including those who are disadvantaged through circumstance or at high risk of substance misuse.**
- 3. To support the personal development of disadvantaged young people through music.**

Today the Foundation helps tens of thousands of vulnerable young people across the UK and abroad, helping them to overcome drug and alcohol addiction and many other difficult issues, such as an eating disorder, or self-harming. We do this by working alongside a wide range of specialist organisations and other charities whose expertise allows us to get help to the young people who need it most.

But it is your support that also helps us do this, and which lets us make a significant and positive difference that pays tribute to Amy's remarkable life, talent and beautiful spirit.
