3 MATTERS ARISING

There were no matters arising that had not been included elsewhere on the agenda.

4 EARLY YEARS FUNDING 2023 -24

Colleagues noted that following the last Funding Forum meeting a consultation was compiled and circulated with regards to the Early Years funding, the consultation ran until 7th February 2023, 89 settings responded.

The responses to the questions were noted as follows:

Q1: 97% agreed to 2 year old funding increasing by 49p an hour.

Q2: 89% were in favour of contingency being set that would enable a 4% increase in the number of hours funded.

Q3: 89% of respondents favoured option B, a rise in the base rate and the SEN inclusion rate to £5.34 with a transfer of £141,280 to a quality factor in place of the TPPG.

Q4: 87% agreed that deprivation remained the only other supplementary factor used in Havering's formula and that the IDACI deprivation rates of funding continued to be aligned with the rates used in the schools' national funding formula.

Q5: 74% were in favour of the central retained budget for LA support remaining unchanged at £790K.

It was noted that 25 written responses had been received and these comments had been shared with the Forum.

It was agreed that all Early Years settings were facing financial constraints and that the Early Years funding settlement from the DfE had not kept pace with rising costs.

DUB stated that a 3p an hour increase was not enough, especially with the cost of living rises at this time. Nurseries in maintained schools were required to have a qualified teacher in place which meant that their costs were higher. ER stated that PVIs were unable to afford qualified teachers.

It was agreed that both schools and the PVI sector were facing rising costs. Although the PVI settings and maintained school nurseries were different, they both met the needs of children in different ways. The sector was underfunded. The base line increase was only 1.1%. NC stated that he had advised officials from the DfE that options for allocating the funding given in lieu of the Teachers Pay and Pension Grant would create a divide between schools with nurseries and PVIs.

NC stated that only 3 schools had responded to the consultation. There were 22 schools with nurseries in Havering. This needed to be raised at the cluster board meetings.

Panel members then voted on the recommendations as follows:

- 1 (i) The basic hourly rate for 2 year olds to increase from £5.97 to £6.46. All Agreed
 - (ii) A contingency to be set that would enable a 4% increase in the number of hours to be funded, initially equalling £78,000.

All Agreed

2 (i) The basic hourly rate for 3 and 4 year olds to increase from £5.19 to £5.34.

All Agreed

(ii) The hourly rate for inclusion funding to increase from £5.19 to £5.34. **All Agreed**

(iii) £141,280 to be allocated to primary schools with nurseries in place of the teachers' pay and pension grants formerly received.

8 panel members agreed, 2 were against

3 Deprivation to remain the only other supplementary factor used in Havering's formula and that the rates of funding continued to be aligned with the rates used in the schools national funding formula.

All Agreed

4 The centrally retained budget for LA support to be set at the reduced level of £790k.

All Agreed

5 That the use of any underspend in the Early Years Block continued to be discussed with the Early Years Provider Reference Group before any proposals were brought to the Schools Funding Forum and before any decisions were made on its use.

All Agreed

5 HIGH NEEDS FUNDING 2023 -24

The funding forum noted the report and agreed to delegate the final decision on funding rates for 2023-24 to the Task and Finish group. £4.58m more in funding was available for High Needs than in 2022-23. With High Needs funding expected to exceed funding by £2.47m in 2022-23 the effective additional sum available for 2023-24 was £2.11m.

It was noted that special schools, PRUs and AP Academies had to receive an additional funding allocation equivalent to 3.4% of their total place and top up funding and that there had to be a minimum 3% uplift for 2023-24 in comparison to 2021-22. The DfE wanted to ensure that special schools had an increase this year where they had not had an uplift last year. This resulted in some discretion being removed from the Forum.

There would be additional costs in 2023-24 resulting from the opening of the new free special school in September 2023 and from the creation of additional ARP places. £850k was required for the new special school and new ARPs would require £350k in funding.

EHCP funding was increased in 2022-23 from £14.00 to £16.00 an hour and the number of hours the school had to fund was reduced to 9.6 hours from 11 hours. It was projected that £3.6m more would be spent in 2022-23 in support of EHCPs as a result of the increased funding rates and the increase in numbers of EHCPs. For 2023-24 it was estimated that a further £2m would be needed to support EHCPs at the current rate of £16.00 per hour.

Early Years complex needs funding was currently funded at £3.20 an hour and the task and finish group would be considering an increase. A rise to £4.00 an hour would add £53k to the cost.

Central support for high needs was currently being reviewed by CP to establish which additional posts could potential provide most benefit.at would help the most. An increase in funding of £243K had been included in the calculations.

The Forum agreed to delegate the decision on high needs funding rates for 2023-24 to the Task and Finish group.

6 FUNDING FOR UKRAINIAN PUPILS

Funding had been made available for children between the ages of 2 and 18 who had entered the country through the Homes for Ukraine scheme.

Early years would be allocated £3,000 per pupil

Primary £ 6,580 per pupil Secondary £8,755 per pupil.

The LA had allocated all the funding to the schools these pupils were attending. It was noted that EY settings would be receiving funding via the census, once children were on roll, as well as from the Home for Ukraine funding.

The DfE released the funding in quarterly amounts, the same amount was received every quarter except for the first when a lower amount was received to reflect the fact that pupils were still arriving. The team responsible for settling people arriving in Havering from Ukraine submitted pupil numbers to the Department for Levelling Up, Housing and Communities. Confirmation of numbers from DLUHC was still awaited for the third quarter.

Funding was allocated on a termly basic to allow funding to follow the pupil if they had moved school. It was questioned whether a school would know by which scheme a pupil had entered the UK.

The funding forum noted the report.

7 NATIONAL TUTORING PROGRAMME GRANT 2022–23

The funding rate for the National Tutoring Programme for the academic year 2022-23 was 60% of the assumed cost of tutoring, meaning that a school had to have spent the remaining 40%, on top of the funding received, in order to prevent funding being clawed back. The cost of tuition was calculated at £18 an hour based on groups of three pupil. £10.80 an hour was funded. For the 2021-22 academic year schools had been funded for 75% of costs whilst for 2023-24 funding would fall to 25% of costs.

8 NEXT MEETINGS

Future meetings had been arranged as follows:

15th June 2023

Meetings to start at 8.00 a.m. at CEME, room 233.

9 ANY OTHER BUSINESS

Colleagues raised the issue of the introduction of the ULEZ charge in the Borough and the effect it would have on schools. It was noted that this was an ongoing concern that was being discussed with councillors.

Meeting closed at 9:14

Representatives of LA maintained schools

SUMMARY

This report provides an analysis of the LA maintained school balances carried forward from 2022-23 into 2023-24.

RECOMMENDATIONS

That the Schools Funding Forum notes the report.

REPORT DETAIL

1. Year on Year Comparison of School Balances

The table below shows the total balances carried forward each year for the 36 primary and one special school that were LA maintained at the end of financial year 2022-23. Three pairs of schools operate a single budget across their federations.

	Total income £m	Total c/fwd balance £m	Balance as a % of income

The local authority will be in discussion with both LA maintained schools with balances above 10% and also those that are unable to set a balanced budget in 2023-24.

7. Breakdown of school income and expenditure

Appendix A shows the breakdown of school income and expenditure for LA maintained schools in 2022-23 by Consistent Financial Reporting category together with the change from 2021-22 and the change from 2019-20, the last pre pandemic year.

High Needs stop-up funding rose by 31% in 2022-23 with Pupil Premium funding rising by 11%. Receipts from absence insurance fell by 26% but still remain 32% above pre pandemic levels. Income from contributions to visits rose by 44% but were still 21% below 2019-20 levels. Donations fell by 25% last year and have fallen by 46% since 2019-20.

Expenditure on directly employed teaching staff rose by 2.8% but with a 23% rise in expenditure on agency teachers the overall cost of teaching staff rose by 3.4%.

Expenditure on directly employed education support staff rose by 14%, a combination of the additional staff required to support pupils with an EHCP and the April 2022 pay award. Agency education support staff costs rose by 63% resulting in a 17% rise in the cost of education support staff overall. The cost of other support staff rose by between 8% and 11% largely as a result of the pay award.

Expenditure on energy rose by 62% with most schools on contracts that fixed energy prices between April 2022 and March 2023.

Expenditure on learning resources rose by 19.5% last year but was still only 8% higher than in 2019-20. Expenditure on ICT fell by 16% whilst capital expenditure on ICT fell by 44%.

Dedicated Schools Grant – Year End Balance 2022-23

Nick Carter – Principal Finance Officer (Schools)

All members

SUMMARY

This report sets out the year end position on expenditure from the Dedicated Schools Grant in 2022-23 and the proposed use of balances in 2023-24.

RECOMMENDATIONS

That the Schools Funding Forum:

- (i) notes the areas of under or overspend from the 2022-23 Dedicated Schools Grant
- (ii) agrees the allocation of funding in financial year 2023-24 as set out in the proposals below

REPORT DETAIL

1. Balance carried forward from 2022-23

Including all earmarked funding from previous financial years, the carry forward balance from centrally retained DSG from 2022-23 into 2023-24 is a deficit of \pounds 8.258m. The revised deficit, after commitments have been taken in consideration, at the end of 2021-22 was \pounds 4.728m, so the in-year increase was \pounds 3.530m.

This is the fourth year that the combined total of all year end balances of activities funded by the DSG has been in deficit. This is due to High Needs costs rising faster than funding and DSG underspends in other areas being insufficient to cover the overspend in the High Needs Block.

Any local authority that has an overall deficit on its DSG account at the end of the 2022-23 financial year, or whose DSG surplus has substantially reduced during the year, is required to complete the Dedicated School Grant Management Plan or to have an equivalent framework.

The DfE have setup a Delivering Better Value (DBV) in SEND Programme, and this new programme commenced in financial year 2022-23. The programme has been phased, starting with a first tranche of 20 authorities in June 2022, followed by a second tranche of 20 authorities in autumn (2022) and the third tranche of 15 authorities in spring (2023). Havering are in the second tranche which commenced in autumn (2022). The DfE prioritised the programme based on those LAs with significant deficits, ensure a balanced spread of advisers and also specific local authority requests.

A full breakdown of the under and overspends along with proposals for the allocation of underspends for use in 2023-24 is shown in the tables below.

Section 251 Budget submission 2023-24

Nick Carter – Principal Finance Officer (Schools)

Eligibility to vote:

All members

SUMMARY

This report presents the Section 251 budget statement for financial year 2023-24.

RECOMMENDATIONS

To receive the Section 251 budget statements.

REPORT DETAIL

Local authorities are required under Section 251 of the Apprenticeships, Skills, Children and Learning Act 2009 to prepare and submit an education and children and young people's services budget statement to the Department for Education by 30th April each year.

The statement is intended to provide a clear picture of the LA's planned spending on its schools budget, de-delegated items, high needs budget, early years budget, and central provision funded both from the Dedicated Schools Grant and from the Council's general fund for education and children and young people's services.

All LAs in England are required to prepare this statement in a common format. The statements are used by the Department for Education for the publication of

statistics, for constructing benchmarking tables for local authorities, and for answering Parliamentary Questions and other requests for data.

The Section 251 budgets statements submitted by Havering for 2023-24 are shown in Appendices A to C

Cost pressures in education settings

Nick Carter Principal Finance Officer (Schools)

SUMMARY

This report considers some of the cost pressures facing education settings at the current time.

RECOMMENDATIONS

That the Schools Funding Forum notes the report.

REPORT DETAIL

Introduction

At the end of the 2022-23 financial year, 15 local authority maintained schools had a budget deficit, a rise of six schools on the previous year. The number of schools in deficit is still slightly below the figure for 2019-20 before the pandemic which eased budget pressures for some schools.

Education settings continue to face costs pressures unprecedented since the delegation of funding to schools in 1990 and the introduction of funded Early Years provision. Whilst most of the focus has been on the impact of teachers' pay and the cost of energy, school budgets have also been impacted by increases in the cost of

services and resources. The largest cost pressure for many schools and Early Years providers, however, is support staff salaries. This is the result of pay rises and also for many schools the need to engage additional staff to support pupils with High Needs.

Additional funding provided

For 2022-23 the DfE introduced the schools supplementary grant for primary and secondary schools stating that this was intended to help schools meet cost pressures. The school supplementary grant was consolidated into National Funding Formula rates for 2023-24 budgets.

In the 2022 Autumn Statement it was announced that the core school budget would be increased by £2 billion in the 2023-24 financial year, over and above totals announced at the Spending Review 2021. An additional £1.6m has been allocated to primary and secondary schools through the mainstream schools additional grant (MSAG). LA maintained schools have received funding for the 2023-24 financial year. Academies will receive funding for a 17 months period April 2023 – August 2024. Funding will then be consolidated into 2024-25 budgets.

In the 2023 Budget an extra £204m was announced for Early Years to be added to the funding for 2 and 3&4 year olds.

When setting budgets for 2023-24 schools have found the increased funding made available has not been sufficient to cover increases in costs. MSAG represents a 3.5% rise on funding delivered through the National Funding Formula, with primary schools in Havering receiving a median sum of £63k and secondary schools a median sum of £212k.

Teaching Staff Pay

The School Teacher's Review Body (STRB) has been passed to the Secretary of State for Education and it is widely reported that it will recommend a 6.5% pay increase for teaching staff for 2023-24. It is likely that this includes a starting salary of £30,000 (£34,000 in outer London) with a general rise of around 6%. It is not known yet whether the Government will accept the recommendations although when trade unions rejected an earlier offer, averaging 4.5%, the Secretary of State indicated that the decision should be left to the pay review body.

In their submission to the pay review body, the DfE stated that an award of 3.5% was manageable within school budgets. This comprised a 3% rise for experienced teachers and an increase in starting salary to £30,000 (£34,000 in outer London). When making the offer averaging 4.5% in March the DfE judged that a pay rise of 4% was now affordable within school budgets. A fall in energy prices was sated as a reason for the change.

The DfE is likely to be in negotiations with the Treasury about the funding of a 6.5% pay rise. If additional money is secured it is reasonable to expect that schools will receive additional funding to cover the gap between the 6.5% recommendation and the 4.0% the DfE now assesses as affordable.

Salary calculators provided by the Local Authority to subscribing schools included an increase of 5% with a starting salary of £34,000, which schools were able to

change. If the recommendation is for a 6.5% rise, and if the schools are funded for the difference between a 6.5% rise and a 4% 'manageable' rise, this will leave schools who have used the salary calculators with a slightly improved budget position. They will receive funding for 1% of the 5% rise for which they have budgeted. Whilst this could equal around £50k for a secondary academy, the figure for an LA maintained primary, where the pay award falls five months into the financial year, is likely to be closer to £8k.

Support Staff Pay

The employers' association have made an offer of a flat rate £1,925 on all spinal points 2 to 43 with a rise of 3.88% on points 44 and above. The offer of £1,925 from 1 April 2023 matches the rise from April 2022. A rise in the national rate of £1,925 in April 2023 became an increase of £2,229 when applied to outer London. It is likely that the same thing would happen again. The trade unions have rejected the offer. In 2023 Unison adopted a neutral stance when the offer was put to members. This year they are recommending rejection and are balloting member on taking industrial action.

Spinal point	April 2022	April 2023	% rise
	£	(offered) £	
5	24,804	22,073	9.0
9	26,472	28,701	8.4
15	29,214	31,433	7.6
24	33,819	36,048	6.6
29	37,725	39,954	5.9
39	47,805	50,034	4.7

A rise of £2,229 translates to a percentage rise as follows:

The spinal points shown are some of the most frequently occurring in schools. Salary calculators supplied to subscribing schools included a rise of £2,229 in line with the offer made.

The effect of this, in terms of cash, will vary. For an academy it will impact on their 2022-23 budget as well as 2023-24 budget. Schools with a higher number of pupils with an EHCP are likely to face a larger increase as they will employ a greater number of teaching assistants. Looking at LA maintained primary schools the impact of a £2,229 pay rise averages £70k, which alone is more than the average value of the Mainstream Schools Additional Grant received. The pay increase will be felt hardest by special schools, where support staff numbers are highest, and the increase in cost could be as high as £1/4m.

Pay rises for support staff have been driven in the last two year by increases in the national living wage and the need to ensure that the lowest pay point, on the 'rest of England' scales, stays above this. Outside of London £1,925 per annum, the value of the April 2022 increase and the 2023 offer, equals exactly £1 an hour.

Another driver of pay increases is recruitment. Many schools are experiencing recruitment difficulties with other occupations offering similar or higher rates for less demanding work.

Increases in the national living wage have also impacted early years PVI providers. The national living wage rose by 6.6% in April 2022 and by 9.7% in April 2023. Many providers find they now have to offer well above the living wage in order to attract staff. The expansion of funded childcare may add to recruitment difficulties.

Support staff employer pension contributions

There has been some relief for LA maintained schools in the form of lower employer contributions to the Local Government Pension Scheme. Rates fell from 30.9% in 2022-23 to 27.5% in 2023-24 and will fall again in two years time to 26.5%. Employer contribution rates for academies are separately assessed although some have reported similar falls.

Energy

The impact on budgets of energy prices will depend on type of contract the school has. LA maintained schools in the Council's corporate energy contracts benefitted from fixed prices between April 2023 and March 2024. This has resulted, however, in rises in the fixed rate for 2023-24 of 130% for electricity and 150% for gas. This contradicts the DfE assertion that schools are benefitting from falling energy costs.

Most schools and academies outside of the Council contract are on some form of fixed rate tariff. This means that falling energy prices generally may not result in reduced costs. When current contracts expire the going rate may still be higher than the previous fixed rate.

The impact on budgets

Cost pressures will see more schools facing financial difficulty if additional funding is not forthcoming. There has been no indication of additional funding from the DfE to offset the rise in support staff salaries, not all schools will benefit straight away from falling energy prices and general inflation is not falling as quickly as projected.

That the Schools Funding Forum notes the report

REPORT DETAIL

The information in this report was presented to Early Years providers at the summer 2023 preparation briefing on 21 April 2023.

2023-24 funding rates

Current funding rates for Early Years are shown at Appendix A. These are the rates agreed by the Forum at their meeting held on 9 February 2023 with the exception of the funding rate for pupils with complex needs.

The High Needs task and finish group, charged with examining High Needs funding rates for 2023-24, felt that the total funding per hour that an early years setting receives for a child with an Education Health Care Plan (EHCP) should match the £16.50 received by schools. Complex needs funding is provided to Early Years settings for pupils with an EHCP. To achieve the total rate of £16.50 per hour the action of \$2000 per hour the \$2000 per hour th

increased from £3.20 to £5.82. For a child with an EHCP, settings will receive £5.34 base rate funding, £5.34 inclusion funding and £5.82 complex needs funding making a total of £16.50 per hour.

Future years

In the Autumn 2021 Spending Review, the Government announced additional funding for Early Years follows:

2022-23 £160m, 2023-24 £180m 2024-25 £170m

For 2023-24 an additional £20m was allocated to Early Years nationally to help meet the cost of the National Living Wage increase. This was applied via a year to year funding protection for local authorities of +1%.

In the spring budget 2023 the Government announced the following changes, in what it described as a 'childcare revolution':

Autumn 2023	 * Childminder grants become available * £204m invested into 3/4yo and 2yo funding rate * Staff:child 2yo ratio change (1:5 from 1:4)
April 24	 * 15 hours for working parents of 2-year-olds introduced * £288m invested into 3/4yo and 2yo funding rates
September 24	 * National wraparound support begins * 15 hours for working parents of children 9 months plus introduced
September 25	* 30 hours for all working parents of children from 9 months to primary school age introduced
September 26	* All schools to offer 8am-6pm wraparound on their own or in partnership

The £204m additional investment in the current financial year is intended to provide a 30% increase in 2 year old funding and an inflation increase to 3 & 4 year old funding. This will take the average national funding rates for local authorities from £6.00 to £8.00 an hour for 2 year olds and from £5.29 to £5.50 for 3 & 4 year olds. Details will be confirmed by the DfE in late summer or early autumn 2023.

Provisional figures released by the DfE indicate that for financial year 2024-25 the average funding rate for local authorities will be around £11 per hour for under 2 year olds and around £8 per hour for two year olds.

A table showing the roll out stages of the changes in funded entitlement is shown at Appendix B.

That the Schools Funding Forum notes the report

REPORT DETAIL

High Needs funding rates 2023-24

At the meeting of the Schools Funding Forum held on 9 February 2023, members agreed that final decisions on funding rates could be made by the High Needs task and finish group. High Needs funding rates agreed for 2023-24 are as follows:

Education Health Care Plans

Funding in support of Education Health Care Plans was increased from £16.00 per hour after 10.6 hours to £16.50 per hour after 10.3 hours.

The complex needs funding rate for pupils in Early Years settings was increased from £3.20 to £5.82 per hour. This means that the total funding received for a pupil with an EHCP will

be £16.50 matching the rate for pupils in schools. This is made up of £5.34 base rate, £5.34 inclusion funding and £5.82 complex needs funding.

Schools Funding Forum meetings academic year 2023-24

Nick Carter – Principal Finance Officer Schools

All forum members

SUMMARY

This report proposes dates for meetings of the Schools Funding Forum for the academic year 2023-24 and invites members to discuss meeting arrangements.

RECOMMENDATIONS

That the Schools Funding Forum agrees the dates and times for meetings in the academic year 2023-24.

REPORT DETAIL

DfE regulations require that the School Funding Forum meet at least four times each year.

Havering Schools Funding Forum met 6 times during the 2022-23 academic year and the LA is proposing that meetings follow the same pattern for 2023-24. The proposed dates for meetings are:

- Thursday 21 September 2023 (room 235)
- Thursday 19 October 2023 (room 233)
- Thursday 30 November 2023 (room 233)
- Thursday 11 January 2024 (room 233)
- Thursday 8 February 2024 (room 235)
- Thursday 13 June 2024 (robage 534

A room at CEME has been provisionally booked for 8.00am on these dates. Forum members are asked to share their views on the proposals.
