| <p><b>Channel Shift</b></p> <p>The customer services strategy is based on a self- service model for those customers and areas where that is the most appropriate form of service delivery. This moves customers from the most expensive forms of communication (face to face followed by telephone) to the much more cost effective self serve model whereby they can transact with us online. This is similar to a retail online model and therefore many customers are already familiar with the concept.</p> <p>In order to assist customers move to online, we have kiosks in the PASCs where they can be assisted by staff and also access in libraries where help is available. In addition, many customers are already knowledgeable about online communications or have families who can assist them.</p> <p>For those customers who are less able to adapt, the current channels will remain for the time being. However, we must endeavour to be digital by default as far as practicable and therefore to obtain better value for money for the Council.</p> <p>The service currently has a channel shift target of 20% and this restructure will realise savings from that move.</p> <p>The PASC and Contact Centre currently occupies leased premises. It is proposed that as the service contracts it moves into mainstream council accommodation.</p> | <p><b>TOTAL £300k</b></p> <table border="1"> <thead> <tr> <th>15/16</th><th>16/17</th><th>17/18</th><th>18/19</th></tr> </thead> <tbody> <tr> <td></td><td>£300k</td><td></td><td></td></tr> </tbody> </table>     | 15/16 | 16/17 | 17/18 | 18/19 |      | £300k |  |  |

**Channel Shift**

1. That customers do not change to using on line and automated channels
2. That easier availability of services increases customer expectation and demand
3. That inability to respond to demand in the back offices leads to increased face to face or telephone demand in the front office and impacts potential savings achievement or leads to diminished levels of customer service
4. That insufficient space is freed up elsewhere to facilitate a relocation

| <b>Re-tender of the Sports and Leisure management contract</b>   |  | TOTAL: £500k                   |       |       |
| This is underway and will be let part way through 16/17. Opportunity to make savings given improved performance of the current contract and by facilitating a more commercial approach from Contractors. The saving proposal assumes the inclusion of RLD to achieve £200k of the savings. |  | 15/16                          | 16/17 | 17/18 |

| <b>Market rent – Stubbers Outdoor Centre</b>   |  | TBA – Commercial in confidence |       |       |
| The rent on this facility has been at peppercorn level for the last 18 years. This proposal is to renegotiate for a market rent for the facility when the lease runs out in 2015/16 and/or take the facility back in house and manage it via the leisure centre contract                   |  |                                |       |       |

| <b>Reasons for recommending proposals</b> | <b>Private Sector Leasing</b>   |
|   | <ul style="list-style-type: none"> <li>• There is sufficient scope (supply and demand) for expanding this service to help meet more of the borough's housing need, and ensure all costs are recovered</li> <li>• Unlike other savings proposals, this initiative does not lead to a reduction in service for Havering residents, and therefore income generation is a much better way of addressing a savings target.</li> <li>• Any increase in the Private Sector Solutions Team will be funded within the increase in activities, and therefore is not an additional budget pressure.</li> </ul> |
| <b>Catering</b>                           | <b>Catering</b>   |
|   | <ul style="list-style-type: none"> <li>• Demand for Meals on Wheels is reducing (as are the number of routes) and therefore it is essential and timely to undertake a full review of the service to ensure that it is sustainable in the longer term.</li> <li>• Outsourcing the service would have many negative connotations (not least an additional strain on Havering's pension fund) and should be considered the least favoured way of meeting the savings target.</li> </ul>  |

#### Identified Risks

##### **Private Sector Leasing**

1. The Council needs to ensure that the activity falls within legal requirements, and meets a social need, and is not purely for a commercial purpose.
2. With rent prices rising above Local Housing Allowance (LHA) limits it will become increasingly difficult to find properties with rents within the LHA limits.
3. Volume of complaints will increase as the number of properties increases.
4. There may come a point at which we will have to exit from the activity, especially as the market is so volatile, and therefore the activity should not be relied upon indefinitely.

##### **Catering**

1. Increasing the charge for meals might lead to a disproportionate reduction in demand that would actually result in a net reduction in income.
2. Demand for the Meals on Wheels service continues to reduce over time which would likely result in a budget pressure for the Catering Service.
3. Undertaking a full review of the operating and financial model of the Catering Service is very complex, and will require expertise and an in-depth understanding of the many variables associated with the service.

In 2015/16 the new Better Care Fund will launch. This pooled budget is aimed at supporting health and social care integration, through transforming services to work more closely together in local areas. The focus will be on enabling improved collaboration work, joint commissioning, better data-sharing, seven-day working across health and social care services, and the protection of social care services.

For the Council this means that some services will be funded via the Better

| <b>Disabled Facilities Grant</b><br>Currently, adaptations to properties for disabled people are undertaken by two separate teams, one within housing and one within adult social care. | <b>Workforce</b><br>The Directorate is proposing to introduce the role of Principal Social Worker to support changes needed in social work practice arising from the Care Act 2014 and Children & Families Act 2014. This function will include quality assurance of practice and workforce development commissioning. Central Government funding for workforce development is no longer ring-fenced, and this has led to an increased budget pressure within the Directorate. | <b>Reasons for recommending proposals</b>   | <ul style="list-style-type: none"> <li>In order to protect front line services for the most vulnerable we have to develop the most efficient working practices.</li> <li>There is a national shortage of social workers and we are currently carrying high numbers of agency staff. We therefore need to focus this scarce resource on the key areas that need qualified staff such as safeguarding.</li> </ul> |
| <b>Identified Risks</b>   |   |
| <ol style="list-style-type: none"> <li>The trade unions may challenge the proposals.</li> <li>Staff may be opposed to the change in their job roles and become disaffected and disengaged.</li> <li>The new models may not be popular leading to recruitment difficulties. Failure to recruit suitably qualified and skilled staff could lead to safety issues.</li> <li>Enabling disabled people to be as independent as possible requires skilled and assertive key-working. If the skill mix is wrong it could lead to people accessing more expensive services.</li> <li>Potential for reduced resilience and business continuity as services become leaner in terms of staffing resource.</li> </ol> |   |

| <b>Council Tax Support (CTS) Options</b>  |           |           |       |
| At a Full Council meeting In January 2013, Council Members approved the Local Council Tax Support Scheme (CTS) which replaced the National Council Tax Benefit Scheme and came into effect on 1 April 2013. We received a 10% reduction in its funding from Central Government which was offset by savings from the Council Tax Reforms.  |           |           |       |
| The CTS grant has since rolled into the Settlement Funding Allocation (SFA), which has been reduced in 14/15 in-line with the core funding reduction. For 14/15 budget no amendments were made to the CTS scheme; instead this was covered as part of the Council's financial strategy.   |           |           |       |
| The review has highlighted options for change in line with other surrounding Councils existing schemes which have duly considered and protected claimants of pensionable age in accordance with law. Therefore the proposals for change only affect working age applicants.   |           |           |       |
| After much consideration, eight options have been put forward which propose changes that will reduce expenditure by varying degrees.  |           |           |       |
| Option 1 is recommended for consultation because it evenly distributes the 15% reduction in CTS and does not disproportionately impact any single vulnerable group. This option also proposes the removal of Second Adult Rebate which provides rebates of up to 25% of the Council tax liability for the second adult, where the taxpayer's income is too high to qualify for CTS. Finally Option 1 reduces the capital limit for working age applicants who would no longer qualify for Council Tax Support where their capital exceeds £6,000. |           |           |       |
| The net savings in each proposal assumes a bad debt provision of 10% and passes on 20% to the Greater London Authority.   |           |           |       |
| Following Members' approval of an option to revise the CTS scheme in 2015, the Council will consult with the Greater London Authority in advance of members of the public and other interested parties. The consultation period is planned for six weeks commencing September 2014 in readiness for December 2014 Cabinet.  |           |           |       |

| <b>Reasons for recommending proposals</b> | Indicative figures suggest further reduction in RSG for 15/16 and beyond which includes the rolled in CTS grant. The level of reduction will not be known until December 2014 at the earliest, however the precise figures may not be exemplified in full but grouped with the core funding. As a result, a review |

| Corporate Policy & Community Manager – Claire Thompson         | Voluntary Sector grants and commissioning budgets are held both corporately and at a service level. The review of the grants and contracts in place with the voluntary sector will be led by the Corporate Policy & Community Manager and the Head of Adults Social Care and Commissioning. The CCG will also be involved in the review. |
| Head of Adult Social Care and Commissioning – Barbara Nicholls |  |
| Head of Childrens Services – Kathy Hundred                     |  |

**Current Budget Information**

In 2013/14, the Council spent approximately £8.7m funding services from the voluntary and community sector, including:

- Core funding grants to organisations (eg. HAVCO and Citizens Advice Bureau)
- Small grants for community projects
- Larger contractual arrangements for specific commissioned services (mainly in children's and adults social care)

Not all the £8.7m comes from the Council's general fund - £1.2m of this is external funding that comes into the Council to be spent on specific purposes or projects (eg. MOPAC grant).

The council also supports the voluntary sector by ways of subsidised "equitable rents", set at one-third of open market commercial rents, to 19 community organisations renting Council premises, amounting to £300,000 per annum.

The Council also provides discretionary rate relief to 94 organisations with charitable status. This amounted to a subsidy of £223,802 in 2013/14.

It is recognised that these initiatives provide vital subsidy to community organisations and therefore they will not be included as part of the review at this time.

The council does recognise that it can support the voluntary and community sector through assistance with accommodation and back office services and proposes to review whether it can provide more such support in the future as part of a new model of working together.

#### Savings Last 4 Years

Over the last four years, the Council has largely managed to cushion the impact of its budget reductions on the voluntary and community sector, and as such its overall investment figure has remained roughly the same.

- Redesign of the approach to funding voluntary and community organisations - moving away from grant dependency towards outcomes-led commissioning, ensuring services are outcomes-focussed, and are adding maximum value in terms of both early help, prevention and demand management.
- Removal of the budget set aside for the grant to HAVCO for the Community Accountancy Service, which has now closed

| <b>Voluntary Sector Review</b><br>The Council is in the process of reviewing its arrangements for working with the voluntary and community sector to build community resilience, which includes moving away from organisations being reliant on grants from the Council towards commissioning arrangements to bring about tangible improvements in outcomes and reduced demand on Council services.<br><br>We will review voluntary sector spend to ensure we are receiving value for money, services are outcomes-focussed, and are adding maximum value in terms of both early help, intervention and prevention, and demand management.<br><br>Effective spend in the voluntary sector helps alleviate demand on our front-line services. We will not be seeking to make the savings by simply decommissioning services, as this would have a damaging impact on the community, and this would likely lead to exponentially increased demand on our front-line services.<br><br>The review will likely lead to a significant change in spending patterns to allow for proper consideration of cost avoidance savings. For example, one | TOTAL: £1100k<br><br><table border="1"> <tr> <td>15/16</td> <td>16/17</td> <td>17/18</td> <td>18/19</td> </tr> <tr> <td>£1100k</td> <td></td> <td></td> <td></td> </tr> </table> | 15/16 | 16/17 | 17/18 | 18/19 | £1100k |  |  |  |

| <p>provider may deliver against the same outcome as another, but it has a higher impact and is more efficient and effective. Therefore, investing proportionally more into this provider could reduce overall demand for our front-line services. Cost avoidance savings could therefore result in a base-budget reduction within our front-line services.</p> <p>The aim of the review is to improve the way that we spend money in the voluntary sector. We will look to prioritise investment that either:</p> <ul style="list-style-type: none"> <li>• Adds the greatest value to Havering's outcomes and indicators;</li> <li>• Provides the greatest value for money and ROI; and/or</li> <li>• Clearly mitigate against future demand pressures on our services.</li> </ul> <p>The review will also look at how we provide infrastructure support services to the voluntary sector, which will involve consultation being carried out to establish what the sector actually needs, and which model</p> |   |       |       |       |       |      |        |  |  |

| <b>Reasons for recommending proposals</b> | <ul style="list-style-type: none"> <li>• The Council needs to move to a new model for working with the community and community organisations, away from grant dependency, which is not sustainable, towards improved commissioning that brings tangible outcomes for local people, where it is most needed, and which allows the voluntary sector to thrive in new markets.</li> <li>• It has been 13 years since the Council last reviewed infrastructure provision in Havering. Since then, much has changed and it is an opportune time to review the provision of infrastructure services in Havering, in terms of what the sector actually needs and how it is provided.</li> <li>• The community accountancy service has been closed by HAVCO and the budget for this service can therefore become an immediate saving</li> </ul> |
|---|---|

| <b>Identified Risks</b>   |  |
|---|--|
| The key risk in this saving is ensuring that throughout the process, proposals and decisions are consulted on with voluntary organisations and their users, and are robustly analysed for equality impact. Failure to do this could result in a legal challenge which carries reputational and financial risks for the Council. |  |
| There is also a risk to future budgets if the proposed 'demand avoidance' investment in preventative voluntary sector-led services does not bring about the required reductions on demand for council services.   |  |
| A robust cost avoidance financial model is urgently needed as cost avoidance savings are difficult to calculate, track and evidence. There is a danger that the Council will revert to more traditional ways of saving money if this is not addressed or if there is a lack of confidence in the model.                         |  |
| That a large proportion of the spend is locked in to / continues to be committed irrespective of value for money or relative impact on outcomes and indicators.   |  |

| <b>Number of FTE in area</b>                                 | <b>Voluntary sector</b><br>It is difficult to quantify how many people are employed by the voluntary sector in Havering, but recent research suggests over 600 people, with potentially 1000s more giving their time for free. |
| <b>Anticipated reduction in FTE as a result of proposals</b> | <b>Voluntary sector</b> No staffing implications on LBH but reductions in funding may bring about job losses in the voluntary sector organisations whose funding is stopped as a result of the review.                         |

| <b>Youth Service redesign</b><br><br>This is a complete redesign of the youth service. The proposal will result in the youth facilitation service transferring to Children's Services where it will be integrated with existing services. Children's services will also make 100k savings. A proposal has been put forward by a member of staff for an employee led mutual to take on aspects of the services work. This proposal will need to be worked through in detail during the budget consultation process to establish if it is viable | TOTAL: £866k<br><br><table border="1"> <tr> <td>15/16</td><td>16/17</td><td>17/18</td><td>18/19</td></tr> <tr> <td>£250k</td><td>£616k</td><td></td><td></td></tr> </table>  |       | 15/16 | 16/17 | 17/18 | 18/19 | £250k | £616k |  |  |

| <b>Reasons for recommending proposals</b> | <p><b>Youth Service Redesign</b></p> <p>This is non-statutory youth service provision. The proposal results in the transfer of the Youth Facilitation service to Children's Services and its integration back into a new offer. The focus of the support would be on early intervention.</p> |

| <b>Early Help and Troubled Families</b><br><br>We now only have six children centres (reduced from 13) in the borough and the service has just undergone a restructure. However, further savings will need to be found through a combination of maximising Council (and partner) assets (e.g. co-location, use during out-of-hours etc.), clearly evidenced cost-avoidance savings, improved partnership working in the children centres and across other services, maximising potential through the Troubled Families programme which is grant-funded, closer working with the Voluntary and Community Sector and the community, exploring ways of generating income (e.g. nursery places), and increasing the number of volunteers. It should be noted that 50% of these services are non-statutory, but they do have the potential to provide immense value in terms of managing demand, early help, intervention and prevention, and strengthening communities. Therefore, any savings must be fully understood and mapped out to minimise the relative fallout and social impact. | TOTAL: £900k                |       |       |

| <b>Reasons for recommending proposals</b> | <ul style="list-style-type: none"> <li>• 50% of these services are non-statutory, and we must aim to protect statutory services for children where possible. Hence this is a trade-off between making savings on non-statutory services or on statutory services.</li> <li>• The Troubled Families programme has been very successful and building on this best practice work could lead to even better outcomes, as well as additional grant from central Government.</li> </ul> |
|---|---|

| <b>Identified Risks</b>  |  |
|--|--|
| 1. Further reductions in the number of children centres could impact on our ability to successfully deliver the (proposed) Early Help, Intervention and Prevention Strategy (due in December) and our demand management savings targets. |  |
| 2. Savings on non-statutory services could lead to exponentially increased demand (over and above the demographic trends) for statutory services which would lead to a net increase in budget pressures.                                 |  |
| 3. The service has just gone through a restructure and further changes to the service might lead to good staff leaving and/or change fatigue.  |  |
| 4. Aspirations relating to increased partnership working and income generation would be impacted if the number of children centres is reduced.   |  |
| 5. Savings relating to utilising / increasing the number of volunteers will not be made if there are insufficient numbers of (suitable) volunteers.  |  |
| 6. There is no guarantee that the Troubled Families Grant will continue beyond 2015/16.  |  |
