SUMMARY

This report sets out the performance of the Council's Corporate Performance Indicators for Quarter 1 (April to June 2014) 2014/15, against the five Living Ambition Goals of the Corporate Plan (Environment, Learning, Towns & Communities, Individuals and Value).

The report identifies where the Council is performing well (Green) and not so well (Amber and Red). The variance for the 'RAG' rating is:

- **Red** = more than 10% off the Quarter 1 Target and where performance has *not improved* compared to Quarter 1 2013/14¹
- **Amber** = more than 10% off the Quarter 1 Target and where performance has *improved or been maintained* compared to Quarter 1 2013/14.
- **Green** = on or within 10% of the Quarter 1 Target

Where the RAG rating is 'Red', a 'Corrective Action' box has been included in the report. This highlights what action the Council is taking to address poor performance, where appropriate.

Also included in the report is a Direction of Travel (DoT) column which compares performance in Quarter 1 2014/15 with performance in Quarter 1 2013/14. A green arrow (↑) means performance is better and a red arrow (↓) signifies performance is worse. An amber arrow (→) means that performance is the same.

Quarter 1 2014/15 - Performance Summary

59 Corporate Performance Indicators are measured quarterly and 54 of these have been given a RAG status. In summary:

- **47 of 54 (87%)** have a RAG status of **Green**
- **7 of 54 (13%)** have a RAG status of **Amber** or **Red**

¹ With the exception of 'Percentage of National Non-Domestic Rates (NNDR) collected' and 'Percentage of council tax collected' where the tolerance is 5%

RECOMMENDATIONS

Cabinet is asked to **review** the report and **note** its content.

Highlighted below is a summary of the Corporate Performance Indicators for Quarter 1 2014/15, where performance is RAG rated as **Green** or **Amber** and shows an improvement on Quarter 1 2013/14; and where performance is RAG rated as **Red**. For these few (**Red**) indicators, corrective action is taking place to improve performance.

The percentage of repairs completed on time this quarter (78%) is slightly outside target tolerance and lower than the same period last year (91%). Individuals – to value and enhance the lives of our residents

Indicator	Quarter 1 Target	Quarter 1 Performance	DoT
PH1 - Chlamydia diagnoses	119	95 (Provisional)	↓
Provisional performance for the quarter (95) is worse than target and worse than the same period last year (109). CY15 - Number of new in-house foster carers	4	0	→
Performance this quarter (0) is worse than target and the same as Q1 last year (0). REASONS AND OPTIONS

Reasons for the decision: To provide Cabinet Members with a quarterly update on the Council's performance against the Corporate Performance Indicators.

Other options considered: N/A

IMPLICATIONS AND RISKS

Financial implications and risks:

Adverse performance for some Corporate Performance Indicators may have financial implications for the Council. Whilst it is expected that targets will be delivered within existing resources, officers regularly review the level and prioritisation of resources required to achieve the targets agreed by Cabinet at the start of the year.

Human Resources implications and risks:

The oneSource HR Service will continue to work with line managers to ensure that sickness absence is being managed appropriately and efficiently across the Council. Targeted actions are being taken in Council services with the highest levels of sickness absence. Resilience Training is being made available to managers and staff by the oneSource Health & Safety Service and all managers are in the process of completing the Management Development Programme to develop the relevant skills.

Legal implications and risks:

Whilst reporting on performance is not a statutory requirement, it is considered best practice to regularly review the Council's progress against the Corporate Plan

Equalities implications and risks:

The following Corporate Performance Indicators rated as 'Red' could potentially have equality and social inclusion implications if performance does not improve:

- **PH1** – Chlamydia diagnoses
- **CY15** – Number of new in-house foster carers
- **ASCOF 1G** – Percentage of adults with learning disabilities who live in their own home or with their family
- **CI1** – Sickness absence rate per annum per employee (days)

Should performance not improve, there will be a negative impact for people of different age groups in particular teenagers and younger people, including children in care. Disabled people could also experience a negative impact if performance continued for ASCOF 1G.

The commentary for each indicator provides further detail on steps that will be taken to improve performance and mitigate these inequalities.
