

**REGULATORY  
SERVICES  
COMMITTEE**

**REPORT**

15 December 2011

<b>Subject Heading:</b>	<b>P1559.11 – Land rear of 51-63 Kingsbridge Road, Harold Hill</b>  <b>Demolition of existing garages and erection of 1 x 3 bedroom detached dwelling and 2 x 4 bedroom semi-detached dwellings with associated parking and garden areas (Application received 2<sup>nd</sup> November 2011)</b>
<b>Report Author and contact details:</b>	<b>Helen Oakerbee, 01708 432 800 Helen.oakerbee@havering.gov.uk</b>
<b>Policy context:</b>	<b>Local development Framework</b>
<b>Financial summary:</b>	<b>None</b>

**The subject matter of this report deals with the following Council Objectives**

Clean, safe and green borough	<input checked="" type="checkbox"/>
Excellence in education and learning	<input type="checkbox"/>
Opportunities for all through economic, social and cultural activity	<input type="checkbox"/>
Value and enhance the life of every individual	<input type="checkbox"/>
High customer satisfaction and a stable council tax	<input type="checkbox"/>

**SUMMARY**

This application relates to a Council owned garage court. This application proposes the demolition of the existing 26 garages and the erection of 2 no. 2 storey semi-detached dwellings with associated parking and garden areas.

The planning issues are set out in the report below and cover the principle of development, impact on the streetscene, residential amenity and highways/parking. Staff are of the view that the proposal is acceptable and it is recommended that permission be granted subject to conditions.

## RECOMMENDATIONS

That planning permission be granted subject to the following conditions.

It is recommended that planning permission be granted subject to the following conditions:

1) Time limit: The development to which this permission relates must be commenced not later than three years from the date of this permission.

Reason:

To comply with the requirements of Section 91 of the Town and Country Planning Act 1990 (as amended by Section 51 of the Planning and Compulsory Purchase Act 2004).

2) Accordance with plans: The development hereby permitted shall not be carried out otherwise than in complete accordance with the approved plans, particulars and specifications.

Reason:

The Local Planning Authority consider it essential that the whole of the development is carried out and that no departure whatsoever is made from the details approved, since the development would not necessarily be acceptable if partly carried out or carried out differently in any degree from the details submitted. Also, in order that the development accords with Development Control Policies Development Plan Document Policy DC61.

3) Parking standards: Before the building(s) hereby permitted is first occupied, provision shall be made for 4 x No. off-street car parking spaces for use by Plot 1 and Plot 2 as shown on drawing no. 10.6861.2500 (received 14<sup>th</sup> October 2011) and thereafter this provision shall be made permanently available for use, unless otherwise agreed in writing by the Local Planning Authority.

Reason:

To ensure that adequate car parking provision is made off street in the interests of highway safety.

4) Materials: Before any of the development hereby permitted is commenced, samples of all materials to be used in the external construction of the building(s)

shall be submitted to and approved in writing by the Local Planning Authority and thereafter the development shall be constructed with the approved materials.

Reason:

To ensure that the appearance of the proposed development will harmonise with the character of the surrounding area and comply with Policy DC61 of the Development Control Policies Development Plan Document.

5) Landscaping: No development shall take place until there has been submitted to and approved by the Local Planning Authority a scheme of hard and soft landscaping, which shall include indications of all existing trees and shrubs on the site, and details of any to be retained, together with measures for the protection in the course of development. All planting, seeding or turfing comprised within the scheme shall be carried out in the first planting season following completion of the development and any trees or plants which within a period of 5 years from completion of the development die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of a similar size and species, unless otherwise agreed in writing by the local Planning Authority.

Reason:

In accordance with Section 197 of the Town and Country Planning Act 1990 and to enhance the visual amenities of the development, and that the development accords with the Development Control Policies Development Plan Document Policy DC61

6) Permitted Development rights: Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (Amendment) (No. 2) (England) Order 2008 Article 3, Schedule 2, Part 1, Classes A, B, C, D and E, no extensions, roof extensions, roof alterations or outbuildings shall take place unless permission under the provisions of the Town and Country Planning Act 1990 has first been sought and obtained in writing from the Local Planning Authority.

Reason:

In the interests of amenity and to enable the Local Planning Authority to retain control over future development, and in order that the development accords with Development Control Policies Development Plan Document Policy DC61

7) Standard flank wall condition: Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 1995, no window or other opening (other than those shown on the submitted plan,) shall be formed in the flank wall(s) of the building(s) hereby permitted, unless specific permission under the provisions of the Town and Country Planning Act 1990 has first been sought and obtained in writing from the Local Planning Authority.

Reason:

In order to ensure a satisfactory development that will not result in any loss of privacy or damage to the environment of neighbouring properties which exist or may be proposed in the future, and in order that the development accords with Development Control Policies Development Plan Document Policy DC61.

8) Cycle storage: Before the building(s) hereby permitted is first occupied, provision shall be made on Plot 1 and Plot 2 for 2 x No. cycle storage spaces in accordance with the approved plans (Drawing Nr. 10.6861.2500) and thereafter this provision shall be made permanently available for use, unless otherwise agreed in writing by the Local Planning Authority.

Reason:

In the interests of providing a wide range of facilities for non-motor car residents, in the interests of sustainability.

9) Hours of Construction: No construction works or construction related deliveries into the site shall take place other than between the hours of 08.00 to 18.00 on Monday to Friday and 08.00 to 13.00 hours on Saturdays unless agreed in writing with the Local Planning Authority. No construction works or construction related deliveries shall take place on Sundays, Bank or Public Holidays unless otherwise agreed in writing by the Local Planning Authority.

Reason:

To protect residential amenity, and in order that the development accords with the Development Control Policies Development Plan Document Policy DC61.

10) Construction Methodology Statement: Before development is commenced, a scheme shall be submitted to and approved in writing by the Local Planning Authority making provision for a Construction Method Statement to control the adverse impact of the development on the amenity of the public and nearby occupiers. The Construction Method statement shall include details of:

- a) parking of vehicles of site personnel and visitors;
- b) storage of plant and materials;
- c) dust management controls;
- d) measures for minimising the impact of noise and ,if appropriate, vibration arising from construction activities;
- e) predicted noise and, if appropriate, vibration levels for construction using methodologies and at points agreed with the Local Planning Authority;
- f) scheme for monitoring noise and if appropriate, vibration levels using methodologies and at points agreed with the Local Planning Authorities;
- g) siting and design of temporary buildings;
- h) scheme for security fencing/hoardings, depicting a readily visible 24-hour contact number for queries or emergencies;

i) details of disposal of waste arising from the construction programme, including final disposal points. The burning of waste on the site at any time is specifically precluded.

And the development shall be carried out in accordance with the approved scheme and statement.

Reason:

To protect residential amenity, and in order that the development accords the Development Control Policies Development Plan Document Policy DC61.

11) Visibility Splays: The proposals shall provide a 2.1 by 2.1 metre pedestrian visibility splay on either side of the proposed access, set back to the boundary of the public footway. There should be no obstruction or object higher than 0.6 metres within the visibility splay.

Reason:

In the interests of highway safety, and in order that the development accords with the Development Control Policies Development Plan Document Policy DC32.

12) Highways Licence Agreement: The necessary agreement, notice or licence to enable the proposed alterations to the Public Highway shall be entered into prior to the commencement of the development.

Reason:

To ensure the interests of the travelling public and are maintained and comply with policies of the Core Strategy and Development Control Policies, namely CP10, CP17 and DC61.

13) Secured by Design: Prior to the commencement of the development hereby permitted, details of the measures to be incorporated into the development demonstrating how 'Secured by Design' accreditation might be achieved shall be submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details, and shall not be occupied or used until written confirmation of compliance with the agreed details has been submitted to and approved in writing by the LPA

Reason:

In the interest of creating safer, sustainable communities, reflecting guidance set out in PPS1, Policy 4B.6 of the London Plan, and Policies CP17 'Design' and DC63 'Delivering Safer Places' of the LBH LDF

14) Noise insulation: The building(s) shall be so constructed as to provide sound insulation of 45 DnT,w + Ctr dB (minimum value) against airborne noise to the satisfaction of the Local Planning Authority.

Reason:

To prevent noise nuisance to adjoining properties in accordance with the recommendations of Planning Policy Guidance Note 24 "Planning and Noise" 1994.

15) Refuse and recycling: Prior to the first occupation of the development hereby permitted, provision shall be made for the storage of refuse and recycling awaiting collection according to details which shall previously have been agreed in writing by the Local Planning Authority.

Reason:

In the interests of amenity of occupiers of the development and also the visual amenity of the development and the locality generally, and in order that the development accords with the LDF Development Control Policies Development Plan Document Policy DC61

16) Obscure glazed windows: The proposed window on 1<sup>st</sup> floor level within the north and south elevations, serving the bathroom as indicated on Drawing Nr. 10.6861.2501 A and south elevation on Drawing Nr. 10.6861.2502 A shall be permanently glazed with obscure glass and fixed shut with the exception of a top hung fan light and thereafter be maintained to the satisfaction of the Local Planning Authority.

Reason:

In the interests of privacy, and in order that the development accords with the Development Control Policies Development Plan Document Policy DC61.

17) Road lighting: Before the building (s) hereby permitted is first occupied, a scheme for lighting within the development, to include the lighting along the access road, shall be submitted to and approved in writing by the Local Planning Authority. The lighting shall be provided and operated in strict accordance with the approved scheme.

Reason:

In the interest of residential amenity.

18) Land contamination: Prior to the commencement of any works pursuant to this permission the developer shall submit for the written approval of the Local Planning Authority;

a) A Phase I (Desktop Study) Report documenting the history of this site, its surrounding area and the likelihood of contaminant/s, their type and extent incorporating a Site Conceptual Model.

b) A Phase II (Site Investigation) Report if the Phase I Report confirms the possibility of a significant risk to any sensitive receptors. This is an intrusive site

investigation including factors such as chemical testing, quantitative risk assessment and a description of the sites ground conditions. An updated Site Conceptual Model should be included showing all the potential pollutant linkages and an assessment of risk to identified receptors.

c) A Phase III (Risk Management Strategy) Report if the Phase II Report confirms the presence of a significant pollutant linkage requiring remediation. The report will comprise of two parts:

Part A - Remediation Statement which will be fully implemented before it is first occupied. Any variation to the scheme shall be agreed in writing to the Local Planning Authority in advance of works being undertaken. The Remediation Scheme is to include consideration and proposals to deal with situations where, during works on site, contamination is encountered which has not previously been identified. Any further contamination shall be fully assessed and an appropriate remediation scheme submitted to the Local Planning Authority for written approval.

Part B - Following completion of the remediation works a "Validation Report" must be submitted demonstrating that the works have been carried out satisfactorily and remediation targets have been achieved.

d) If during development works any contamination should be encountered which was not previously identified and is derived from a different source and/or of a different type to those included in the contamination proposals then revised contamination proposals shall be submitted to the LPA ; and

e) If during development work, site contaminants are found in areas previously expected to be clean, then their remediation shall be carried out in line with the agreed contamination proposals.

For further guidance see the leaflet titled, "Land Contamination and the Planning Process".

Reason:

To protect those engaged in construction and occupation of the development from potential contamination. Also in order that the development accords with the LDF Development Control Policies Development Plan Document Policy DC53.

## **INFORMATIVES**

1. Reason for Approval:

It is considered that the proposal satisfies the relevant criteria of Policies DC2, DC3, DC7, DC33, DC36, DC55, DC61 and DC63 of the LDF Development Control Policies Development Plan Document.

Note: Following a change in government legislation a fee is now required when submitting details pursuant to the discharge of conditions, in order to

comply with the Town and Country Planning (Fees for Applications and Deemed Applications) (Amendment) (England) Regulations, which came into force from 06.04.2008. A fee of £85 per request (or £25 where the related permission was for extending or altering a dwellinghouse) is needed.

2. The applicant is advised that planning approval does not constitute approval for changes to the public highway. Highway Authority approval will only be given after suitable details have been submitted, considered and agreed. Any proposals which involve building over the public highway as managed by the London Borough of Havering, will require a licence and the applicant must contact StreetCare, Traffic and Engineering on 01708 433750 to commence the Submission / Licence Approval process.
3. The developer, their representatives and contractors are advised that planning permission does not discharge the requirements under the New Roads and Street Works Act 1991 and the Traffic Management Act 2004. Formal notifications and approval will be needed for any highway works (including temporary works) required during the construction of the development.
4. The applicant is advised that if construction materials are proposed to be kept on the highway during construction works then they will need to apply for a license from the Council.
5. With regards to surface water drainage it is the responsibility of the developer to make proper provision for drainage to ground, water courses or a suitable sewer. In respect of surface water it is recommended that the applicant should ensure that storm flows are attenuated or regulated into the receiving public network through on or off site storage. When it is proposed to connect to a combined public sewer, the site drainage should be separate and combined at the final manhole nearest the boundary. Connections are not permitted for the removal of Ground Water. Where the developer proposes to discharge to a public sewer, prior approval from Thames Water Developer Services will be required. They can be contacted on 0845 850 2777.
6. In aiming to satisfy Condition 13 the applicant should seek the advice of the Police Crime Prevention Design Advisor. The services of the local Police CPDA is available free of charge through Havering Development and Building Control or Romford Police Station, 19 Main Road, Romford, Essex, RM1 3BJ." It is the policy of the local planning authority to consult with the Borough CPDA in the discharging of community safety condition(s).

## REPORT DETAIL

### 1. Site Description

- 1.1 The application site is a garage court located to the north of Kingsbridge Road, access into the site is between No's 59 and 61. The site is bound on all side with residential properties, the gardens of which enclose the garage court. The site is currently covered in hard standing and has 26 garages which are in poor condition.
- 1.2 The site for residential development is approximately 645 square metres in size. Ground levels are generally flat.
- 1.3 The character of the surrounding area is predominantly residential and is characterised by two storey semi-detached dwellings.

### 2. Description of proposal

- 2.1 This application seeks permission to demolish the existing 26 garages on the site and erect 1 No. detached 3 bedroom dwelling (plot 1) and 2 No. semi-detached 4 bedroom dwellings (plot 2 and 3) with associated parking and garden areas.
- 2.2 The dwellings have an east-west orientation with windows and doors towards the front and rear. Plot 1 has single ground and first floor flank windows on the southern elevation these serve a W.C at ground and bathroom at first floor. Plot 2 and 3 have flank windows located on the northern and southern elevations respectively which also serve a dining area at ground floor and bathroom at first floor.
- 2.3 Plot 1 measures 5.3m wide and 10.6m deep. The development is two storeys in height measuring 4.7m to the eaves and 7.1m to the ridge. The main entrance to each property is located to the western elevation. At ground floor there is a kitchen, living room and W.C. At first floor there are three bedrooms and bathroom. The property has a hipped roof.
- 2.4 Plot 2 and 3 are staggered in their arrangement, Plot 2 is located adjacent the northern boundary and Plot 3 adjacent to the access drive to the south. These measure 6.3m wide each to give a total width of 12.6m and 10.2m deep. The development is two storeys in height measuring 4.7m to the eaves and 8,2m to the ridge. At ground floor, each dwelling provides a kitchen, living/ dining room and W.C. At first floor there are four bedrooms and a bathroom. These properties have a gabled roof.
- 2.5 Access to the dwellings is via the existing highway which would be retained as a shared surface road (for pedestrians and vehicles), this measures 2.8m wide. To the front of the dwellings would be a turning area. There would be

6 parking spaces, 2 to each plot, these are located to the front of the properties and are separated by pathways.

- 2.6 Amenity space for each dwelling is provided to the rear. Plot 1 has 122 square metres of amenity space. Plot 2 has 128 square metres of amenity space. Plot 3 has 99 square metres of amenity space. All amenity areas would be screened by a 1.8m high fence with 0.3m trellis on top, providing a 2.1m high enclosure.

### **3. Relevant History**

- 3.1 None

### **4. Consultations/Representations**

Neighbour notification letters were sent to 35 properties. At the time of writing this report, the 21 days for consultation has not expired and no representations had been received. At the time of the committee date, the consultation period will have expired; any representations received will be reported verbally to Members.

### **5. Relevant Policies**

- 5.1 Policies CP17 (Design), DC2 (Housing Mix and Density), DC3 (Housing Design and Layout), DC7 (Lifetime Homes), DC33 (Car parking), DC36 (Servicing) DC61 (Urban Design), DC63 (Crime) and the Residential Design Supplementary Planning Document of the Local Development Framework Core Strategy and Development Control Policies Development Plan Documents, Policies 3.5 and 3.8 of the London Plan (2011), PPS1 (Delivering Sustainable Development) and PPS3 (Housing) are relevant.

### **6. Staff Comments**

- 6.1 This proposal is put before the Committee as the site comprises land owned by the Council. The main issues to be considered by Members in this case are the principle of development, the site layout and amenity space, design/streetscene issues, amenity implications and parking and highway issues.

#### **6.2 Principle of development**

- 6.2.1 The site lies outside the Metropolitan Green Belt, Employment Areas, Commercial Areas, Romford Town Centre and District and Local Centres. The principle of residential development is considered acceptable in land use terms and the provision of additional housing is consistent with PPS3 as the application site is within an established urban area.

- 6.2.2 Policy 3.8 of the London Plan states that DPD policies should offer a range of housing choices, in terms of the mix of housing sizes and types, taking account of the housing requirements of different groups. Policy 3.5 states that Local Development Frameworks should incorporate minimum space

standards. The Mayor has set these at 87 square metres for a 3 bed, 4 person dwelling and 96 square metres for a 3 bed, 6 person dwelling. Plot 1 has a floor space of 112 square metres which is acceptable. The policy requires 100 square metres for a 4 bed, 5 person two storey dwelling and 107 square metres for a 4 bed, 6 person dwelling. Plots 2 and 3 have an internal floor space of in excess of 128 square metres which is acceptable.

6.2.3 Policy CP1 indicates that outside town centres and the Green Belt, priority will be made on all non-specifically designated land for housing. The proposal is for redevelopment of a derelict site within an existing residential area. The proposal is therefore acceptable in principle and in accordance with Policy CP1.

### 6.3 Site Layout/ Amenity Space

6.3.1 The Council's Residential Design SPD in respect of amenity space recommends that every home should have access to suitable private and/or communal amenity space in the form of private gardens, communal gardens, courtyards, patios, balconies or roof terraces. In designing high quality amenity space, consideration should be given to privacy, outlook, sunlight, trees and planting, materials (including paving), lighting and boundary treatment. All dwellings should have access to amenity space that is not overlooked from the public realm and this space should provide adequate space for day to day uses.

6.3.2 The amenity space to all dwellings is provided towards the side and rear in single rectangular blocks, enclosed by a 1.8m close boarded fence with 0.3m trellis above. The amenity areas would not be visible from any public view points they would measure 122 square metres for Plot 1 and 128 square metres for Plot 2 and 99 square metres for Plot 3. Access to the garden area is through the dwelling and side entrance gates.

6.3.3 Amenity space in the local area is similarly arranged to the rear of properties and varies in size. Gardens to properties in the south on Kingsbridge Road measure between 85 to 120 square metres. Gardens to properties in Faringdon Avenue to the north measure between 90-95 square metres. Staff are of the opinion that the proposed garden areas would be large enough to be practical for every day use and with the provision of fencing, would be screened from general public views and access. It is therefore considered that the proposed garden areas would acceptably integrate into the locality and comply with the requirements of the Residential Design SPD.

6.3.4 The residential density range for this site is 30-50 dwellings per hectare. The proposal would result in a density of approximately 50 dph which is within the approximate ranges. Staff consider the proposals to be of an appropriate density for the area.

6.3.5 The development is arranged as a detached dwelling and pair of semi-detached properties. The locality is largely formed from semi-detached

properties, although there is no objection to a detached dwelling in principle, especially where it does not form part of the streetscene. The semi-detached pair are staggered in their arrangement. This is in order to accommodate sufficient onsite parking to all three units.

#### 6.4 Impact on Local Character and Streetscene.

6.4.1 Policy DC61 of the LDF Development Plan Document seeks to ensure that new developments are satisfactorily located and are of a high standard of design and layout. Furthermore, the appearance of new developments should be compatible with the character of the surrounding area, and should not prejudice the environment of the occupiers and adjacent properties. Policy DC61 of the DPD states that planning permission will only be granted for development which maintains, enhances or improves the character and appearance of the local area.

6.4.2 The surrounding area has no prevailing architectural style. Properties are typically semi-detached with hipped or gabled roofs. Materials in the locality include facing brick and render. The proposed dwellings are set back from the access road and would be screened by existing development in Kingsbridge Road; as such it is not considered that they would be materially harmful in the streetscene.

6.4.3 In terms of design, the properties have a traditional design with covered entrances. They would be finished in render with a tiled roof and UPVC windows. Plot 1 is detached and finished with a fully hipped roof. Plots 2-3 are semi-detached and are finished with a gable end roof and symmetrical elevations. These dwellings are staggered in their arrangement with Plot 2 set 1m forward of Plot 1. This is acceptable in design terms and no objection is raised to this arrangement. Staff consider that the design for all three dwellings would be acceptable for the locality. However, samples and details of materials are to be conditioned so that Staff can ensure any external material is of a sufficient quality.

6.4.4 Ground levels are fairly flat in the locality and the dwellings are inset from the boundary and would be screened by existing development. Staff consider that the dwellings would not result in a visually intrusive or overbearing appearance, especially given their orientation and boundary screening.

6.4.5 The development of housing on the site with landscaping would improve the quality of the existing garage court and would therefore be an enhancement to the character and appearance of the surrounding area in general.

6.4.6 It is considered that the development of a detached dwelling and pair of detached 2-storey dwellings in this location would have an acceptable impact on the character and appearance of the locality. In light of sufficient separation distances between the proposed dwellings and neighbouring properties, Staff are of the opinion that the proposals would not appear as a cramped or overbearing form of development within the surrounding rear

garden environment and overall would have an acceptable design and appearance, therefore compliant with the aims and objectives of Policy DC61 of the Local Development Framework.

## 6.5 Impact on Amenity

6.5.1 Policy DC61 considers that new developments should not materially reduce the degree of privacy enjoyed by the occupants of adjoining properties or have an unreasonably adverse effect on sunlight and daylight to adjoining properties.

6.5.2 The southern corner of the front elevation of Plot 1 is set 18.8m from no. 61 Kingsbridge Road, the northern front corner is set 20m from no. 226 Faringdon Avenue. The rear elevation is set 18.8m from 67 Kingsbridge Road and 24.6m from no. 69 Kingsbridge Road. The front elevation is set 10.4m east of Plot 2 and 12.4m east of Plot 3.

6.5.3 The front northern corner of Plot 2 is located 16.4m away from no. 220 Faringdon Avenue, the rear corner is set 17.4m away from no. 216 Faringdon Avenue. It's rear elevation is set 25m west from no. 10 Kingsbridge Close. The southern front corner of Plot 3 is set 19.2m from no's 55-59 Kingsbridge Road to the south and 24m from no. 8 Kingsbridge Close to the west.

6.5.4 Guidance with the adopted Residential Design SPD does not prescribe back to back distances, given the above garden separation depths between the dwellings and surrounding properties, it is not considered that there would be any overbearing impact.

6.5.5 The southern flank windows to Plot 1 serve a W.C and bathroom; these raise no objection and would not result in overlooking of the adjacent properties in Kingsbridge Road as they can be conditioned to be obscure glazed and non opening, with the exception of a top hung fan light for ventilation. The northern elevation of this property is blank. The flank windows on the northern elevation to Plot 2 serve a dining room at ground floor which raises no objection. The same windows serve Plot 3 on the southern elevation and raise no objection.

6.5.5 The windows to the front elevations of Plot 1, 2 and 3 would overlook the parking and shared turning area. It is considered that the separation distance between each plot is acceptable. The rear windows to each plot would share an orientation with adjacent properties in Kingsbridge Close to the west and Kingsbridge Road to the east. The separation distances between these plots and adjacent dwellings is considered acceptable. First floor bathroom windows facing north and south are not considered to result in overlooking as they can be conditioned so that they are obscure glazed and non opening, with the exception of a top hung fan light for ventilation.

6.5.6 Plot 2 is set 1m forward of Plot 3, the front projection is considered minimal and would not result in a loss of amenity. This forward position also means

that Plot 3 is located 1m rearward of Plot 2; this rear projection is also minimal and raises no objection.

- 6.5.7 In terms of additional noise and disturbance, it is not considered that the addition of 3 x family dwellings would give rise to any undue levels of noise and disturbance to the surrounding neighbouring properties within what is a predominantly residential area.
- 6.5.8 There would be 6 parking spaces provided, 2 for each dwelling. These are located to the side of Plot 1 and to the front of Plot 2 and 3, a turning area is provided centrally in the site. The spaces to Plot 2 are located adjacent to the rear boundary shared with no. 222 Faringdon Avenue and is separated by a 1.8m close boarded fence with strips of soft landscaping. It is acknowledged that the site is currently used for informal parking and Staff are of the opinion that the parking is sufficiently removed from existing dwellings and that no noise or light pollution would occur as a result of these 6 car parking spaces on the site which is a reduction from the possible 26 that the site can accommodate at the present time.
- 6.5.9 Staff consider the proposal to be acceptable in its current form. Given the size of the proposed 2-storey development in relation to the resultant limited plot space, any additions, extensions or alterations to the dwelling may result in harm to the character of the surrounding area and neighbouring amenity. In light of this, Staff are of the opinion that all Permitted Development Rights for the proposed development should be removed in order to safeguard the appearance of the street scene and amenities of neighbouring occupiers.
- 6.5.10 It is considered that the layout, siting and design of the proposed development would be acceptable with no material harmful impact on the amenities of neighbouring properties. The development is therefore considered to comply with the aims and objectives of Policies CP17 and DC61 of the LDF Development Control Policies DPD in respect of its impact on neighbouring amenity.

## 6.6 Highway/Parking/Access

- 6.6.1 Policy DC33 in respect of car parking refers to the density matrix in Policy DC2. The site has a PTAL rating of 1-2 and therefore requires 2 - 1.5 parking spaces per unit for a development of this type nature. 2 parking spaces are provided per unit which is acceptable.
- 6.6.2 According to information provided by the applicant, all 26 garages are in a poor condition and all are currently vacant. The loss of these garages in favour of the proposal to provide new family accommodation is therefore considered acceptable and would not result in any highway safety or parking issues.

6.6.3 The access road would have a shared surface for vehicles and pedestrians. The width of the access road measures 2.8m and this is not proposed to change. The access arrangements raise no objections from Staff.

6.6.4 The development provides storage for 2 x no. cycle spaces to each dwelling which would comply with the Council's standards as set out in Annex 6 which requires a provision of 2 spaces per dwelling with 3 or more bedrooms.

6.6.5 In light of the above, the proposal is considered to satisfy the requirements of Policy DC2 and DC33 and would not result in any highway or parking issues.

## 6.7 Other issues

6.7.1 The plans submitted show an area for refuse storage in the access road and householders would need to carry their black sacks to this refuse point on collection days. This has been considered acceptable by StreetCare and raises no objection. Specific details as to the refuse storage are attached via condition.

## 7. Conclusion:

7.1.1 Overall, Staff are of the opinion that the proposals to provide 3 dwellings would be of an acceptable appearance, they would be largely screened by existing development in Kingsbridge Road. It is also considered that the proposal presents an acceptable degree of spacing between the buildings, proposed and existing and is not considered to appear as unacceptably dominant or visually intrusive. It is considered that the proposal would not have any detrimental impact on neighbouring properties. There are no highways issues raised with regard to the provision of parking for the dwelling. The provision of amenity space is also acceptable and approval is recommended accordingly.

## IMPLICATIONS AND RISKS

**Financial implications and risks:** None

**Legal implications and risks:**

This application is considered on its own merits and independently from the Council's interest as applicant and owner of the site.

**Human Resources implications and risks:** None.

### **Equalities implications and risks:**

The proposed dwellings would be constructed to meet the Lifetime homes Standard which means that they would be easily adaptable in the future to meet the changing needs of occupiers.

## **BACKGROUND PAPERS**

Application forms and plans received 2/11/2011.

1. The planning application as submitted or subsequently revised including all forms and plans.
2. The case sheet and examination sheet.
3. Ordnance survey extract showing site and surroundings.
4. Standard Planning Conditions and Standard Green Belt reason for refusal.
5. Relevant details of Listed Buildings, Conservation Areas, Article 4 Directions.
6. Copy of all consultations/representations received and correspondence, including other Council Directorates and Statutory Consultees.
7. The relevant planning history.
