**The subject matter of this report deals with the following themes of the Health and Wellbeing Strategy**

- Theme 1: Primary prevention to promote and protect the health of the community and reduce health inequalities
- Theme 2: Working together to identify those at risk and intervene early to improve outcomes and reduce demand on more expensive services later on
- Theme 3: Provide the right health and social care/advice in the right place at the right time
- Theme 4: Quality of services and user experience

### SUMMARY

This report provides a further update to the Board on the development of the East London Health & Care Partnership and the Sustainability and Transformation Plan.

On 21 October 2016 we submitted an [updated narrative](#), [updated summary](#) and [delivery plans](#) to address our local priorities to NHS England. Further work is continuing to develop the plan in more detail; additional updates will be presented to the Board as they become available. ## REPORT DETAIL

### 1. Background

1.1 In December 2015 NHS England planning guidance required health and care systems across the country to work together to develop sustainability and transformation plans (STPs). The STP for East London is being developed by the East London Health & Care Partnership. The plan is known as the NEL STP because the NHS has divided London into five areas: north east; north central; north west; south west; and south east.

1.2 For Havering, the work to develop the detail underpinning the NEL STP is being taken forward jointly with Barking & Dagenham and Redbridge through the development of the business case for an Accountable Care Organisation. The issues that any ACO would need to address in order to achieve improved outcomes from health and social care, in the context of a financially sustainable health economy, will be reflected in the contributions from Barking & Dagenham, Havering and Redbridge to the NEL STP.

### 2. Proposal

2.1 See Appendix 1

### 3. Engagement

3.1 We recognise the involvement of local people is crucial to the development of the NEL STP. We engaged with partners, including Healthwatch, local councils, the voluntary, community and social enterprise sector, and patient representatives during the drafting of the STP and are continuing to involve them in developing our plans and activities.

#### **4. Financial considerations**

- 4.1 The draft NEL STP includes activities to address current financial challenges across the health and social care economy. The ambition is to ensure that all NHS organisations are able to achieve financial balance by the end of the five year period of the plan.

#### **5. Legal considerations**

- 5.1 The East London Health & Care Partnership Board is developing a plan as stipulated by the NHS England guidance.

#### **6. Equalities considerations**

- 6.1 An equality screening has been completed to consider the potential equality impact of the proposals set out in the NEL STP. This can be viewed at <http://www.eastlondonhcp.nhs.uk> and includes:

- An overview of all the initiatives included in the NEL STP narrative to determine at which level equality analyses should be undertaken i.e. NEL STP level, Local Area Level, CCG/borough level or London-wide level.
- An initial assessment of the East London STP overarching 'Framework for better care and wellbeing'.
- Actions to be undertaken during further detailed equality analyses.

The screening recognises that the initiatives included in the STP will be implemented at different times, hence further equality analyses will need to be undertaken over the life of the STP programme.
