

## HEALTH & WELLBEING BOARD

**Subject Heading:**

The NHS Long Term Plan response across ELHCP. How we plan to deliver on our commitments.

**Board Lead:**

**Report Author and contact details:**

Mark Scott, Deputy Director of Transformation  
PMO, ELHCP, markscott3@nhs.net

**The subject matter of this report deals with the following themes of the Health and Wellbeing Strategy**

<input type="checkbox"/>	The wider determinants of health
	<ul style="list-style-type: none"> <li>• Increase employment of people with health problems or disabilities</li> <li>• Develop the Council and NHS Trusts as anchor institutions that consciously seek to maximise the health and wellbeing benefit to residents of everything they do.</li> <li>• Prevent homelessness and minimise the harm caused to those affected, particularly rough sleepers and consequent impacts on the health and social care system.</li> </ul>
<input type="checkbox"/>	Lifestyles and behaviours
	<ul style="list-style-type: none"> <li>• The prevention of obesity</li> <li>• Further reduce the prevalence of smoking across the borough and particularly in disadvantaged communities and by vulnerable groups</li> <li>• Strengthen early years providers, schools and colleges as health improving settings</li> </ul>
<input type="checkbox"/>	The communities and places we live in
	<ul style="list-style-type: none"> <li>• Realising the benefits of regeneration for the health of local residents and the health and social care services available to them</li> <li>• Targeted multidisciplinary working with people who, because of their life experiences, currently make frequent contact with a range of statutory services that are unable to fully resolve their underlying problem.</li> </ul>
<input type="checkbox"/>	Local health and social care services
	<ul style="list-style-type: none"> <li>• Development of integrated health, housing and social care services at locality level.</li> </ul>
<input type="checkbox"/>	BHR Integrated Care Partnership Board Transformation Board
	<ul style="list-style-type: none"> <li>• Older people and frailty and end of life      Cancer</li> <li>• Long term conditions      Primary Care</li> <li>• Children and young people      Accident and Emergency Delivery Board</li> <li>• Mental health      Transforming Care Programme Board</li> <li>• Planned Care</li> </ul>

## SUMMARY

We (East London Health & Care Partnership) submitted a response to NHSE/I on the Long Term Plan on 15<sup>th</sup> November 2019, which is available on this web link

<https://www.eastlondonhcp.nhs.uk/ourplans>

This pack contains an update on the overall development of our response to the LTP. This update outlines progress to date, future planned engagement and our approach to delivery and reporting.

This pack also contains a delivery report on our current progress in delivering key elements of the plan. This report sets out the high-level governance for implementing the plan and provides a short progress report based across four thematic priority areas:

1. Improving population health
2. System change and integration
3. Priority areas for improving outcomes
4. Enablers supporting work programmes

We are actively monitoring LTP metric trajectories, and have included an update on these areas in the pack.

## RECOMMENDATIONS

The Havering Health and Wellbeing Board is asked to note the next steps in developing our response to the LTP, as well as note the ELHCP LTP Implementation Update.

## REPORT DETAIL

These papers will be taken to CCG Governing Bodies, Trust Boards, Borough Partnership Boards and Health and Wellbeing Boards during January and February.

We will also be producing a short, public-facing version of the LTP response to be published in January.

The LTP response provides strategic direction across ELHCP and for local systems.

Local implementation of the LTP should provide the following benefits for local people:

- don't notice organisational boundaries – it is all one health and care system working together to provide the best care
- are supported to stay well
- can access the best care possible in modern, fit for purpose facilities
- can view their patient record online, and are confident it is stored securely
- access care provide by skilled, motivated, kind staff with a culture of continuous improvement
- benefit from world class research and innovation which means earlier diagnosis and more effective treatments.

A key part of our LTP response is to refocus towards prevention and population wellness, and a component of our population health approach will be to address health inequalities and wider determinants of health.

There will be an equality impact assessment undertaken of the LTP response in collaboration with other London STPs.

Further detail in accompanying report

## **IMPLICATIONS AND RISKS**

Overall, it is a key strategic priority for all our partner organisations to manage financial risk in a different way, given the projected increases in demand for services and the available resources and capacity.

There are components of transformation funding across the LTP, which will be used to drive improvements and delivery of key metrics.

The two main areas of risk for LTP implementation are finance and workforce.

- Finance will be addressed via the 2020/21 system operating planning processes.
- There will be a detailed review on workforce brought to the March 2020 STP Executive, to ensure the proportionate level of oversight is given to this key enabler.
