Havering are saturating Rainham with residential units, and the area cannot cope with the influx of thousands more people. Rainham's medical provision is already very poor and we will never get to see a GP or Dentist. The area will become a concrete jungle. We need another supermarket and better retail shops in the village, not take-always and chicken shops. We need butchers, bakers etc. to keep the area alive. Tesco has custom as it is the only choice we have. Another supermarket is essential with the influx of thousands more people.

The C2C train service and the 372 bus route is extremely poor and unreliable. We need more and improved transport links to cope with thousands more residents. It's time Havering considered these pressures and sorted the infrastructure FIRST before agreeing to build hundreds of properties and creating CONCRETE JUNGLES saturating an area that already cannot cope with the poor public services we have forced on us.
