

**London Borough of Havering
Boundary Commission Review**

**Part 2 Submission
The Local Government Boundary
Commission Review for England**

Submission of Option 1A

**On behalf of the
Upminster and Cranham Residents' Group**

Alternative Option 1A

As part of the Local Government Boundary Commission for England (LGBC) review of the electoral arrangements for the London Borough of Havering (LBH), Havering Council have produced four different official options for ward boundary. A further option, known as Option 4A, has also been put forward for consideration.

This submission of **Option 1A** seeks to address various deficiencies identified with Options 1-4 and 4A and present a suitable alternative that meets all of the requirements of the changing and expanding communities served by the local authority. The main criteria set when designing **Option 1A** were the following -

- Retain the existing structure of 18 three member wards.
- Continuity of the existing wards and boundaries where possible, with changes kept to a minimum.
- Suitably address deficiencies identified in Option 1.
- Meet the prescribed LGBC conditions of 1) Electoral equality for voters, 2) Community identities and interests and 3) Effective and convenient local government.

The areas of Havering that are expected to experience the most change (Romford and Beam Park) have been accommodated into wards that retain the natural communities of the area. In particular, Romford Town Ward includes all of the area within the ring road and the southern South Hornchurch and Rainham and Wennington wards are remodelled into wards that incorporate the Beam Park development without becoming geographically oversized or misshapen.

To achieve electoral equality it was necessary to split two voting districts (RT5 and EL2) each in two. However, both of these changes could be seen as a benefit, as the areas moved from their existing wards sit naturally into the recipient wards.

The key features to highlight within Option 1A are:

- The existing structure of 18 three member wards is retained.
- The LGBC's preferred council size (retaining 54 members) is achieved.
- Electoral equity is achieved, with a smaller variance (14%) between maximum and minimum sized wards than any of the Official Options (1-4).
- There are only 15 polling district movements (Option 1 has 21 movements).
- Total electorate predicted to be affected by the proposed changes by 2025 is estimated to be approximately 27,000 (13% of borough electorate), nearly 8,000 (22%) less than any of the Official Options (1-4).
- Ward names remain as at present, giving continuity to voters.

Option 1A - Polling District Changes
