SUMMARY

The attached paper updates the Sub-Committee on the position with the Environmental Policies and Climate Change review. This follows the passing of a motion on this area by full Council at its meeting in July 2019. The Sub-Committee is invited to take any further action it considers necessary in order to further scrutinise these areas.

RECOMMENDATIONS

That the Sub-Committee consider the issues discussed in the attached paper and decide whether it wishes to take any further action to scrutinise this area. This could include, but is not limited to, the establishment of a topic group to meet over the coming months to develop the draft policies and actions and to undertake more in depth scrutiny of the subject.

REPORT DETAIL

A motion on climate change and related issues was agreed at a meeting of full Council in July 2019. In order to aid the development of further policies in this area, the attached paper on this subject is now brought to scrutiny for comment and discussion.

Officers will introduce the paper and address any questions etc. The Sub-Committee will then be asked to decide if it wishes to scrutinise this issue any further. The Sub-Committee has the option of establishing a topic group review to scrutinise this area in more depth or to take any further action, if any, that it wishes.

IMPLICATIONS AND RISKS

Financial implications and risks: None of this covering report.

Legal implications and risks: None of this covering report.
