Part A – Report seeking decision

DETAIL OF THE DECISION REQUESTED AND RECOMMENDED ACTION

This decision approves:

1. The provision of free Saturday parking in all Council managed car parks* commencing 07:00 hours on Saturday 5th December 2020 ending 23:59 hours on 2nd January 2021. Free Saturday parking will be applicable on the following days:
Saturday 5th December 2020;
Saturday 12th December 2020;
Saturday 19th December 2020;
Saturday 26th December 2020; and
Saturday 2nd January 2021
2. Where an existing season ticket has been purchased, permitting Saturday parking in Council managed car parks on the free parking days stated in 1 above, that season ticket shall be extended at the point of renewal for a period of five days; or where such a season ticket is not renewed a pro-rata refund of five days may be issued by the Council at the written request of the season ticket holder (always subject to evidence of entitlement).
3. The suspension of enforcement action against vehicles parked in Council managed car parks for failure to correctly display or purchase parking time on the free parking days stated in 1 above.

*as noted in Appendix B

AUTHORITY UNDER WHICH DECISION IS MADE

Part 3: Responsibility for Functions

2.5 The following Functions may be delegated to individual Cabinet members by the Leader
(q) To agree minor matters and urgent or routine policy matters

STATEMENT OF THE REASONS FOR THE DECISION

As the Covid pandemic evolves, the second national lockdown measures have been eased and the London Borough of Havering is now placed within Tier 2 restrictions. The Council recognise the issues local businesses and high streets have faced and wish to support them in advance of the Christmas period.

Non-key Executive Decision

Customers already benefit from 1 hour free on-street parking every day at every pay and display location across the borough and so the free parking offer at weekends in Council managed car parks will compliment that existing arrangement.

The following measures will be implemented to support the decision as noted and will support high streets, businesses, residents and the visitors of Havering.

- Communication will be distributed advising that the Council will be offering free parking at Council managed car parks from Saturday 5th December across the borough for 5 consecutive weekends
- All pay and display machines located within a Council managed car park will be covered in advance of the chargeable period on Saturdays for the dates noted
- Signage advising of the free parking offer will be presented at every pay and display machine located within a Council managed car park
- The RingGo facility (cashless payment facility via phone, app and web) will be managed so as to ensure customers are advised that parking is free and or will not be able to make payment via the phone, app or web facility via RingGo
- The cost to the Council to give free parking in Council managed car parks would be circa £30k.

OTHER OPTIONS CONSIDERED AND REJECTED

To not change any of the parking charges offer throughout the month of December. This was not seen as an option especially as businesses within the local high streets are reopening following the easement of the second national lockdown from 2nd December 2020.

The Council will also continue to engage and comply with any Government directives or advice received and will monitor this arrangement as necessary.

PRE-DECISION CONSULTATION

Analysis undertaken to understand the potential income loss to the Council and pre-decision consultation between members of the Senior Leadership team

Part B - Assessment of implications and risks

LEGAL IMPLICATIONS AND RISKS

The Council has had to significantly change the way it undertakes business as usual as an urgent and evolving response to impact arising from Covid 19. All authorities throughout the country have had to rapidly adapt the way they manage services including having to prioritise some over others. The Council is mindful of those adjustments including those detailed by London Councils in their guidance dated 22nd March 2020. This paper dealt with how the reprioritisation was to impact the Council's parking arrangements including enforcement.

The Road Traffic Regulation Act 1984 (RTRA 1984), places a duty on the Council to secure the expeditious, convenient, and safe movement of vehicular and other traffic (including pedestrians), and to provide suitable and adequate parking facilities on and off the highway. Parking controls and enforcement are covered under various legislation and guidance including Greater London (Powers) Act 1974, Road Traffic Regulation Act 1984, London Local Authorities Acts 1996 and 2003. The Council intends to continue with activities where they are a necessity and manage its usual duties but in a more responsive way to deal with the crisis at this present time.

It is anticipated that as a consequence of reducing the enforcement activity there would be an impact on the collection of monies which are usually used to maintain the service provision including upkeep of the highways etc. Under s55 RTRA 1984 separate accounts are required to be maintained for each of parking, bus lane and moving traffic contraventions. Any surpluses generated can only be applied to specified purposes including further parking provision, highway improvement and maintenance and public transport support.

FINANCIAL IMPLICATIONS AND RISKS

The financial risk to the Council taking in account car parking fees and potential PCN is an income loss circa of £30k.

There are also the additional costs associated with implementing this decision such as signage and any fees requested from associated suppliers which are not yet confirmed but which will be absorbed from the parking account.

There is already a significant impact on the revenue ordinarily achieved through the Parking account following the pandemic and so this will be an additional pressure to the service.

HUMAN RESOURCES IMPLICATIONS AND RISKS (AND ACCOMMODATION IMPLICATIONS WHERE RELEVANT)

There are no HR implications by this decision as existing resource within the parking service will be utilised so as to meet the requirements.

Non-key Executive Decision

EQUALITIES AND SOCIAL INCLUSION IMPLICATIONS AND RISKS

The Public Sector Equality Duty (PSED) under section 149 of the Equality Act 2010 requires the Council, when exercising its functions, to have due regard to:

- (i) The need to eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under the Equality Act 2010;
- (ii) The need to advance equality of opportunity between persons who share protected characteristics and those who do not, and;
- (iii) Foster good relations between those who have protected characteristics and those who do not.

Note: 'Protected characteristics' are age, sex, race, disability, sexual orientation, marriage and civil partnerships, religion or belief, pregnancy and maternity and gender reassignment.

The Council is committed to all of the above in the provision, procurement and commissioning of its services, and the employment of its workforce. In addition, the Council is also committed to improving the quality of life and wellbeing for all Havering residents in respect of socio-economics and health determinants.

An EQHIA has not been carried out as these changes will affect all members of the public including those with disabilities or those with additional needs but assurance is given that Disabled persons will not be disadvantaged as they will continue to be able to utilise specific parking places as is currently.

HEALTH AND WELLBEING IMPLICATIONS AND RISKS

Traffic and parking management is a key element in response to Covid, ensuring key workers have access to parking to assist residents and businesses and ensuring emergency services can get through.

With the ease of the lockdown we need to ensure that business can operate and businesses, residents and visitors can utilise parking provision at the weekends.

With charges being made free on Saturdays this will not only support the local high streets but will assist low income residents in addition of reducing the risk of infection and the need of additional cleansing of the pay and display machines (they will be covered over)
