## About your activity

1	Title of activity	Housing Allocation policy		
2	Type of activity	Policy Housing lettings		
3	Scope of activity	<p>This policy applies to new applicants, (including homeless households), and to existing tenants transferring from one property to another.</p> <p>The Housing Act 1996, (as amended by the Homelessness Act 2002, the Localism Act 2011 and the Homelessness Reduction Act 2017), requires local authorities to make all housing allocations and nominations in accordance with a Housing Allocation policy.</p> <p>A summary of this Housing Allocation policy must be published and made available free of charge to any person who asks for a copy.</p>		
4a	Are you changing, introducing a new, or removing a service, policy, strategy or function?	Yes	If the answer to <u>any</u> of these questions is 'YES', please continue to <b>question 5</b> .	If the answer to <u>all</u> of the questions (4a, 4b & 4c) is 'NO', please go to <b>question 6</b> .
4b	Does this activity have the potential to impact (either positively or negatively) upon people (9 protected characteristics)?	Yes		
4c	Does the activity have the potential to impact (either positively or negatively) upon any factors which determine people's health and wellbeing?	Yes		

Completed by:	Kwabena Obiri, Choice and Allocations Manager Joe Agius, Strategy & Policy Officer
Date:	27/11/2020

## How this policy will impact on people?

### Background

Social housing is provided by social landlords – generally, local authorities or housing associations. However, it has been clear for some time that housing supply is not keeping up with demand. Affordable housing however is broader and includes all housing that has received a public subsidy or grant in its development.

Demand for social housing in Havering significantly exceeds the number of properties available. In the financial year 2019-2020, only two in every 10 households on the housing register had a realistic prospect of getting social housing. This policy sets out how the Council will prioritise access to the available housing.

### Purpose of this policy

The Housing Act 1996 Part VI requires local authorities to give reasonable preference in the way they allocate their available social housing.

The purpose of this policy is to clearly explain how Havering Council, (“the Council”), decides how available social housing is allocated. It sets out the Council’s eligibility, qualifying and housing need criteria to ensure priority is fairly assigned and allocated to households in the greatest need. It also sets out how the Council will enable access to other forms of affordable housing such as shared ownership and intermediate rented housing.

### Aims of this policy

The aims of this policy are to:

- ensure that we make the best possible use of the social housing stock;
- provide housing that is suitable to the specific needs and requirements of households;
- prioritise households that have been assessed to be in most need and to those who make a positive contribution to our community;
- help build sustainable communities and neighbourhoods, and
- ensure social and affordable housing is allocated in a clear, fair and transparent manner.

### Scope of this policy

This policy applies to new applicants, (including homeless households), and to existing tenants transferring from one property to another.

The Housing Act 1996, (as amended by the Homelessness Act 2002, the Localism Act 2011 and the Homelessness Reduction Act 2017), requires local authorities to make all allocations and nominations in accordance with an Allocation Scheme. A summary of the Allocations Scheme must be published and made available free of charge to any person who asks for a copy.

This document is available on the Council’s website: [www.havering.gov.uk](http://www.havering.gov.uk) and paper copies will be provided on request.

The Housing Act 1996 (as amended) requires local authorities to give reasonable preference in their allocations policies to people with high levels of assessed housing need. The main groups are:

- People who are homeless as defined by the Housing Act 1996, Part 7;
- People who are owed a duty by any local housing authority under section 190(2), 193(2) or 195(2) (or under section 65(2) or 68(2) of the Housing Act 1985), or who are occupying accommodation secured by any such authority under section 192(3);
- People occupying insanitary or overcrowded housing, or who are otherwise living in unsatisfactory conditions;
- People who need to move on medical or welfare grounds (including any grounds relevant to a disability); and
- People who will suffer hardship to themselves or to others if they are unable to move to a particular locality or district.

In addition to the above, the Council also exercises its statutory discretion to grant additional preference and/or to determine priority between applicants with reasonable preference. Applicants in reasonable preference categories makeup around 61% of the Council's housing register – comparatively reasonable preference made up around 47% of all Council allocations in 19/20, contributing to 214 of 455 lets. Whilst there is slightly larger demand for accommodation than supply for applicants of reasonable preference, the figures show that they are overall treated fairly, contributing to just under half of all Council lets.

The Act also requires local authorities to state within the policy what its position is on offering applicants a choice of housing accommodation, or offering them the opportunity to express preference about the housing accommodation to be allocated to them. Our policy on choice is described below in Section 4.

### **In summary – the proposed key changes**

The new, Housing Allocations Policy will introduce the following key changes:

#### **1. Qualification Criteria**

##### **• 10 years continuous residency:**

In a change to the previous policy in order fulfil the Council's qualification criteria to join the Housing Register, an applicant will be required to demonstrate a continuous residency of ten years in the borough of Havering from the previous 6 years.

##### **• Residency exemptions**

Within the criterion, a residency exemption will be granted to applicants of refugee status or of traveller background of five years, provided they have resided in the borough for five years continuously, and can demonstrate a community contribution such as paid, unpaid or voluntary work in the borough or being a recognised carer for an elderly or disabled adult or child. Further exemptions will also be included.

##### **• Income threshold:**

In a change to the previous policy, the gross income threshold for applicants has been raised from £36,000 to £50,000 and a change of the savings limit to £30k.

This is proposed in recognition of the changing financial climate. Applicants who come above this threshold will not qualify to join the register.

## 2. Banding Changes

- Change to five new bands and new prioritisations within the bands.
- Applicants previously placed under the Reduced Priority banding will no longer qualify for social housing.

Who will be affected by the activity?	
Applicants to the Havering Council Housing Register to seek housing.	
Protected Characteristic - Age	
<i>Please tick (✓) the relevant box:</i>	<b>Overall impact: Neutral</b>
<b>Positive</b>	This policy states an Age qualification for applicants to be placed on the Council's Housing Register. This is:
<b>Neutral</b>	<p><u>Age - Applicants must be 18 years of age or over</u></p> <p>The Council will not normally grant a tenancy to anyone under the age of 18 years unless another adult is prepared to act as their guarantor and agrees to cover the rent or any arrears.</p>
<b>Negative</b>	<p>Exception: The age qualification criterion will not apply where a young person, aged under 18 years, is owed a duty under current legislation, but is unable to access suitable accommodation other than by being given an offer of council or housing association accommodation. In exceptional circumstances, the Council can grant permission to occupy a property to an applicant under 18 years by means of an Equitable Agreement.</p> <p>The policy therefore is inclusive of all eligible persons and does not discriminate on the basis of age, except in the case where persons are under 18 years old and in which case exemption is made according to the duty owed to some young people under legislation as stated above.</p>

### Evidence:

Declining mortality rates mean higher life expectancies.

A newborn male baby in the UK today can expect to live for 79.2 years and a girl to 82.9 years, with 22.6% of newborn boys and 28.3% of newborn girls projected to live to 100 years old<sup>1</sup>.

- Havering has the oldest population in London with a median age of 40 years, as recorded in the 2011 census.
- The life expectancy at age 65 years in Havering is 19 years for males and 21.7 years for females. The life expectancy at birth for people living in Havering is 80.2 years for males and 83.9 years for females.
- From 2011 to 2016, Havering experienced the largest net inflow of children across all London boroughs. 4,580 children settled in the borough from another part of the United Kingdom during that five-year period.
- It is projected that the largest increases in population up to 2033 will occur in the following age brackets; children (0-17 years), and older people age groups (65 years and above).

## HAVERING - BY AGE GROUP

The Havering population is estimated to be 257,810 (ONS, 2018). The table below gives a breakdown by five year age bands and gender.

Age Band (Years)	Male	Female	Persons
00-04	8,850	8,520	17,370
05-09	8,429	8,081	16,510
10-14	7,595	7,503	15,098
15-19	7,166	6,743	13,909
20-24	7,351	7,198	14,549
25-29	8,642	9,220	17,862
30-34	8,526	9,742	18,268
35-39	8,614	9,268	17,882

<sup>1</sup> Article: 'Living longer; how our population is changing and why it matters' (Office for National Statistics, August 2018)

40-44	7,542	8,125	15,667
45-49	7,868	8,624	16,492
50-54	8,460	9,279	17,739
55-59	8,072	8,290	16,362
60-64	6,806	6,860	13,666
65-69	5,696	6,272	11,968
70-74	5,417	6,379	11,796
75-79	3,561	4,741	8,302
80-84	2,817	4,121	6,938
85-89	1,747	3,000	4,747
90+	719	1,966	2,685
<b>All Ages</b>	<b>123,878</b>	<b>133,932</b>	<b>257,810</b>

Havering has the oldest population in London with a median age of 39 years. There are approximately 60,102 persons aged 65 and over in Havering. This is more than a fifth of the whole population (23.3%).

Figure 1 below shows a much older age structure for the population of Havering compared to London but similar to England.

Figure 1 : Havering, England and London Mid-2018 Population Pyramid

Data source: ONS 2018 Mid-year population estimates.

The increased age of residents within Havering could see mean that there is an increased pressure for smaller or sheltered type properties.

Sources used:

- This is Havering 2019/20 version 4.4, Public Health Intelligence
- ONS 2018 Mid-year Population Estimates

### Protected Characteristic - Disability

Please tick (✓)  
the relevant box:

**Positive**

**Neutral**

**Negative**

**Overall impact: Neutral**

This policy decides on applicants cases based on a number of criteria, including an applicant's health and consequent housing need priority. The policy states:

#### MEDICAL

The medical element of the assessment is based on whether the applicant's health, or a member of their household's health, would improve by moving to alternative accommodation. Consequently, medical priority is awarded according to the extent to which the health or welfare of one or more members of the applicant's household, is affected by their current housing conditions and the expected benefits of providing suitable alternative housing.

Applicants are asked to complete a Medical Assessment Form. A Housing Assessment Officer will consider the information supplied by the applicant, along with any further and necessary information supplied by other parties such as health professionals and housing officers.

Applicants claiming to have a severe and enduring mental illness will need to demonstrate that they currently have, or have recently had, access to Havering Mental Health Services.

Depending on the circumstances, medical priority can be awarded under the Band 1, 2a or Band 3. The following table is used as a guide to how medical priority is determined:

<i>Medical Condition</i>	<i>THE EFFECT OF CURRENT HOUSING ON THE APPLICANT'S HEALTH</i>		
	<i>Severe</i>	<i>Moderate</i>	<i>Low</i>
<i>Serious</i>	<i>Band 1</i>	<i>Band 2a</i>	<i>No medical priority</i>
<i>Moderate</i>	<i>Band 2a</i>	<i>Band 3</i>	<i>No medical priority</i>

Applicants who clearly have an urgent need to move because they have a critical medical condition, or very serious disability, will be placed in the Band 1.

Therefore, the policy makes due consideration of the disability and/or

		severe health issues of an applicant and provides a bespoke service to consider an individual's health circumstances in deciding their Housing Register application. This should improve the outcomes for disabled applicants.
--	--	--

### Evidence:

- In 2017, 3,506 adults (aged 18-64 years) were estimated to be living with serious physical disabilities in Havering.
- The estimated rate of serious physical disabilities in Havering (2,323 per 100,000 population aged 18-64 years) is similar to England but significantly higher than London average. It is one of the highest rates within London local authorities (see Figure 22). One of the key reasons for this is likely to be due to the relatively older population in Havering compared to other London boroughs.

Please note: Rate per 100,000 calculation uses mid 2016 population.

The following shows the prevalence of various disabilities in Havering:

Table 1: Number of people aged 18-64 with disabilities in Havering by age band, 2020

Age band	Number with learning disability	Number with Impaired mobility	Number with serious visual impairment	Number with moderate or severe, or profound hearing impairment
18-24	519	192	12	347
25-34	911	366	24	791
35-44	882	1,790	23	1,652
45-54	792	1,685	22	4,271
55-64	721	4,438	21	8,143
18-64	3,824	8,471	102	15,204

Table 2: Number of people aged 18-64 with mental health problems in Havering, 2020

Mental health problem	Number
Common mental disorder	29,906
Borderline personality disorder	3,796
Antisocial personality disorder	5,184
Psychotic disorder	1,100
Two or more psychiatric disorders	11,327

Table 3: Number of people aged 65 & over unable to manage at least one mobility activity on their own in Havering, 2020

Age band	Number
65-69	1,023
70-74	1,642
75-79	1,506
80-84	1,740
85 and over	3,410
65 and over	9,321

Table 4: Disabled population with medical needs

Protected Characteristic - Ethnicity/race		
Please tick (✓) the relevant box:		<b>Overall impact: Neutral</b>
<b>Positive</b>	<input type="checkbox"/>	This policy offers an ethnicity neutral approach to making decision on the allocation of housing. The Policy will be carried out with an emphasis on equality of treatment.
<b>Neutral</b>	<input checked="" type="checkbox"/>	
<b>Negative</b>	<input type="checkbox"/>	<p>There is insufficient evidential information at this time as to whether the impact on this protected characteristic will be positive or negative. It is currently envisaged that there will be neutral impact at the least.</p> <p>2.3.2 (j) Exception (Travelers &amp; Refugees) - Overall impact would be neutral/positive for applicants of traveller background or refugee status with no sizable advantage gained from the reduction of residency for applicants requiring family accommodation as there would still be extended waiting periods in their elevated banding. Single or Coupled applicants of refugee or traveller backgrounds stand to benefit from a reduction in residency with greater opportunities of success for 1 bed permanent accommodation.</p>

#### Evidence:

- Havering is one of the most ethnically homogenous boroughs in London, with 83% of its residents recorded as 'White British' in the 2011 census; higher than both London and England.
- However, the ethnically homogenous characteristic of Havering is gradually changing due to its growing cultural diversity.
- The Borough's white population is projected to decrease from the current 84% to 78% in 2032.
- The BME population, notably those from Black African heritage (though many of whom are likely to be British born) is projected to increase from 4.1% in 2017 to 5.3% of the Havering population in 2032

According to the GLA ethnic projections (2020) There are approximately 40,500 (18%) people from BAME groups living in Havering, the majority being black Africans (11,700, 4.5%).

Table 1: The GLA ethnic population projections 2020

Ethnic Group	Male	Female	Persons
White British	94,850	101,950	196,810
White Irish	1,320	1,620	2,940
Other White	7,280	7,330	14,610

	Other	2	0
No response	Blank/Refused	126	6
		1913	100

2.3.2 (j) Exception (Travelers/Refugees) - a reduction in residency criteria appears to have no significant advantage to applicants of traveler background. From data sourced from P1E records, shows the number of accepted homeless cases under Part 7 between 2016-18 for travelers were as follows:

Table 3: Accepted homeless cases for applicants of traveler/gypsy background 2016-18

Year	Total
2016	0
2017	0
2018	0

For the year 19/20 data sourced from HCLIC showed there were five known traveler cases investigated under part 7 with one case accepted under s.193 main duty. Accepted applications to the housing register did not fare better for applications from travelers with one application made in 2019 and zero acceptances to the register between 2016 and year-end 2020. This appears to suggest there is very little in the way of housing demand from the travelling community.

Table 4: Accepted applicants from traveler/Gypsy community to the housing register

Year	Status	Homeless	Residency Met?	Banding	Year Residency Met	New Band	Bed Need	Rehoused
2019	Traveler	Yes	No	RP	-	-	1	No

Opportunities for non-UK residents/asylum seekers appear to be relatively neutral to positive dependent on bedroom size required. Data obtained shows that between 2016-20 eight households were granted homeless decisions under s.193 of HA96. Of these eight households five went on to apply and become accepted on the housing register.

The below data shows the pathway of accepted Non-UK national applicants to the register, with the remaining three cases provided with alternative housing solutions such as discharge into private sector accommodation.

Table 5: Accepted Non-UK nationals/Refugees to the housing register

Year	Status	Homeless	Residency Met?	Banding	Year Residency Met	New Band	Bed Need	Rehoused
2016	Refugee	Yes	No	RP	2020	CC2	4	No
2018	Refugee	Yes	No	RP	-	-	1	Yes
2018	Refugee	Yes	No	RP	-	-	2	No
2018	Refugee	Yes	No	RP	-	-	4	No
2019	Refugee	Yes	No	RP	-	-	3	No
2019	Refugee	Yes	No	RP	-	-	2	No
2019	Refugee	Yes	No	RP	-	-	3	No
2019	Refugee	Yes	No	RP	-	-	3	No

For context, the only Non-UK national current on the list with a higher priority banding resulting from RP banding (residency criterion) is currently in CC2 band with an effective date of 22<sup>nd</sup> September 2020. For the purpose of context, an analysis of the number of properties the applicant would have been successful for based on lowered exception criteria by years is documented below:

Table 6: Prospective accommodation offer for eligible Non-UK national/refugee applicant

CC2 Band (having fulfilled residency criterion from RP Banding)		
Effective Date	Bedroom Eligibility	Potential Successful bids based on effective date
22/09/15 (5 year residency)	Four bedroom	13
22/09/18 (4 year residency)	Four bedroom	8
22/09/17 (3 year residency)	Four bedroom	8

22/09/18 (2 year residency)	Four bedroom	4
22/09/19 (1 year residency)*	Four bedroom	3
Total		32

Based on the data, there appears to be a sizeable impact to the applicant starting from RP band, who based on the five-year wait to achieve banding status would have missed on 32 four bedroom properties to applicants in higher banding. This differs from a qualifying applicant as homeless who met initial residency placed under Homeseeker (H) band and subsequently qualified for CC2 under similar circumstances.

If expected waiting times are applied based on banding effective date stretching back five years (22/09/15) the results would show as follows:

Table 7: Waiting based on earlier effective date (2015)

Banding	Bedroom Need	Waiting Time (in Band – with residency served - no RP)	Total waiting time (with accrued RP years)
ER	Four bedroom	1 month	5 years
CC1	Four bedroom	1-6 months	5.5 years
CC2	Four bedroom	1-2 years	6-8 years
H	Four bedroom	3-7 years	8-12 years

From the above table there is a visible distinction in the prospective waiting times based on the above applicants placement in CC2 with an earlier effective date. With the current effective date (22/09/20) applied the waiting times would vary considerably:

Table 8: Waiting times based on current effective date (2020)

Banding	Bedroom Need	Waiting Time (in Band – with residency served – no RP)	Total waiting time (with accrued RP years)
ER	Four bedroom	6 months	5.5 years
CC1	Four bedroom	2-3 years	7-8 years
CC2	Four bedroom	3-5 years	8-10 years
H	Four bedroom	4-7 years	9-12 years

### Protected Characteristic - Religion/faith

Health & Wellbeing		
<i>Please tick (✓) all the relevant boxes that apply:</i>		<b>Overall impact: Neutral</b>  <b>Do you consider that a more in-depth HIA is required as a result of this brief assessment? No ✓</b>  The process of reviewing this policy will assist the Council in ensuring that accommodation occupied by the tenants meets their housing needs. Housing plays a key role in the health and well-being of residents. Overcrowding of accommodation can lead to health issues and family disputes. Evidence detailed below demonstrates that this is a real problem in Havering. The review process will identify and enable the Council to allocate social housing to those in the greatest need.  Where resources permit, and eligibility for social housing remains, the Council will look to housing tenants in accommodation that meets the tenants needs, either in council stock or through the use of reciprocal and nomination agreements with registered providers with whom the Council works in partnership.  Similarly, reviews of this policy will also indicate in terms of disability where the tenant's current home is no longer suitable – either where the tenant or a member of their household no longer has a need for a specifically adapted property or where the review identifies that the tenant has a need for an adaptation to their home.  Again, where resources permit, the Council will seek to allocate more suitable accommodation for the tenant or will assist the tenant to obtain a disabled facilities grant to adapt the home.
