The subject matter of this report deals with the following themes of the Health and Wellbeing Strategy

<input checked="" type="checkbox"/>	The wider determinants of health										
	<ul style="list-style-type: none">• Increase employment of people with health problems or disabilities• Develop the Council and NHS Trusts as anchor institutions that consciously seek to maximise the health and wellbeing benefit to residents of everything they do.• Prevent homelessness and minimise the harm caused to those affected, particularly rough sleepers and consequent impacts on the health and social care system.										
<input type="checkbox"/>	Lifestyles and behaviours										
	<ul style="list-style-type: none">• The prevention of obesity• Further reduce the prevalence of smoking across the borough and particularly in disadvantaged communities and by vulnerable groups• Strengthen early years providers, schools and colleges as health improving settings										
<input type="checkbox"/>	The communities and places we live in										
	<ul style="list-style-type: none">• Realising the benefits of regeneration for the health of local residents and the health and social care services available to them• Targeted multidisciplinary working with people who, because of their life experiences, currently make frequent contact with a range of statutory services that are unable to fully resolve their underlying problem.										
<input checked="" type="checkbox"/>	Local health and social care services										
	<ul style="list-style-type: none">• Development of integrated health, housing and social care services at locality level.										
<input type="checkbox"/>	BHR Integrated Care Partnership Board Transformation Board

Havering

LONDON BOROUGH

SUMMARY
The draft roadmap to a fully functioning Borough partnership as part of an Integrated Care System
RECOMMENDATIONS
For Board to note progress
REPORT DETAIL
Attached presentation is the roadmap drafted so far
IMPLICATIONS AND RISKS
This is the means by which some of the HWB agenda is to be delivered, although as a separate non-decision making entity. Risks include matching the scale of the agenda to the resources available to deliver it. The intrinsic demands of partnership working might be compromised because of the nature of separate organisations with potentially different priorities, governance and culture Many risks in getting to where we want to be that will need to be risk managed.
