SUMMARY

In 2019/20, BHRUT started on the development of a ten-year clinical strategy to determine how it deliver services across its hospitals to provide the very best care for our communities.

The Trust undertook a huge amount of work in the year before Covid-19, however, completion of the strategy was paused at the start of the pandemic.

BHRUT has restarted the work to complete the strategy, while also considering the impact of Covid-19, and would like to update the Health and Wellbeing Board on the work it is currently undertaking to ensure the strategy is informed by the needs of our population and the views of patients and partners.

RECOMMENDATIONS

To note the progress of BHRUT's clinical strategy and engagement opportunities.
