## SUMMARY

The BHR System Transformation Boards restarted from Q1 21/22, following the return to 'BAU' across the system.

As part of the re-start process, all schemes and initiatives under each Transformation Board were reviewed, in light of Covid, and the following assessments were made:

- Whether there were any changes to underlying assumptions of the initiatives that altered the activity and finance requirements/impact of the scheme
- Whether schemes previously in development were still feasible for continued development
- Revision of the 'start' dates for new schemes/schemes in development where appropriate and necessary
- Were there any new opportunities/requirements which had arisen, due to Covid or Covid related impact, that required development as a priority

This report provides an update on the progress made during 21/22 by each of the Transformation Boards, and the impact of the Transformational initiatives both generally and in respect of the BHR system Integrated Sustainability Plan (ISP).

Additionally, this report provides an update on the development of a proposal for ongoing collaboration across NEL, BHR and Place Based Partnerships as we move into the Integrated Care System (ICS) arrangements.

## RECOMMENDATIONS

To note the content of the presentation

## REPORT DETAIL

None additional

## IMPLICATIONS AND RISKS

There is a risk that if Transformation Boards do not deliver/implement schemes as planned, achieving financial sustainability may exceed the time frames set out in the Integrated Sustainability Plan.

## BACKGROUND PAPERS
