Key successes

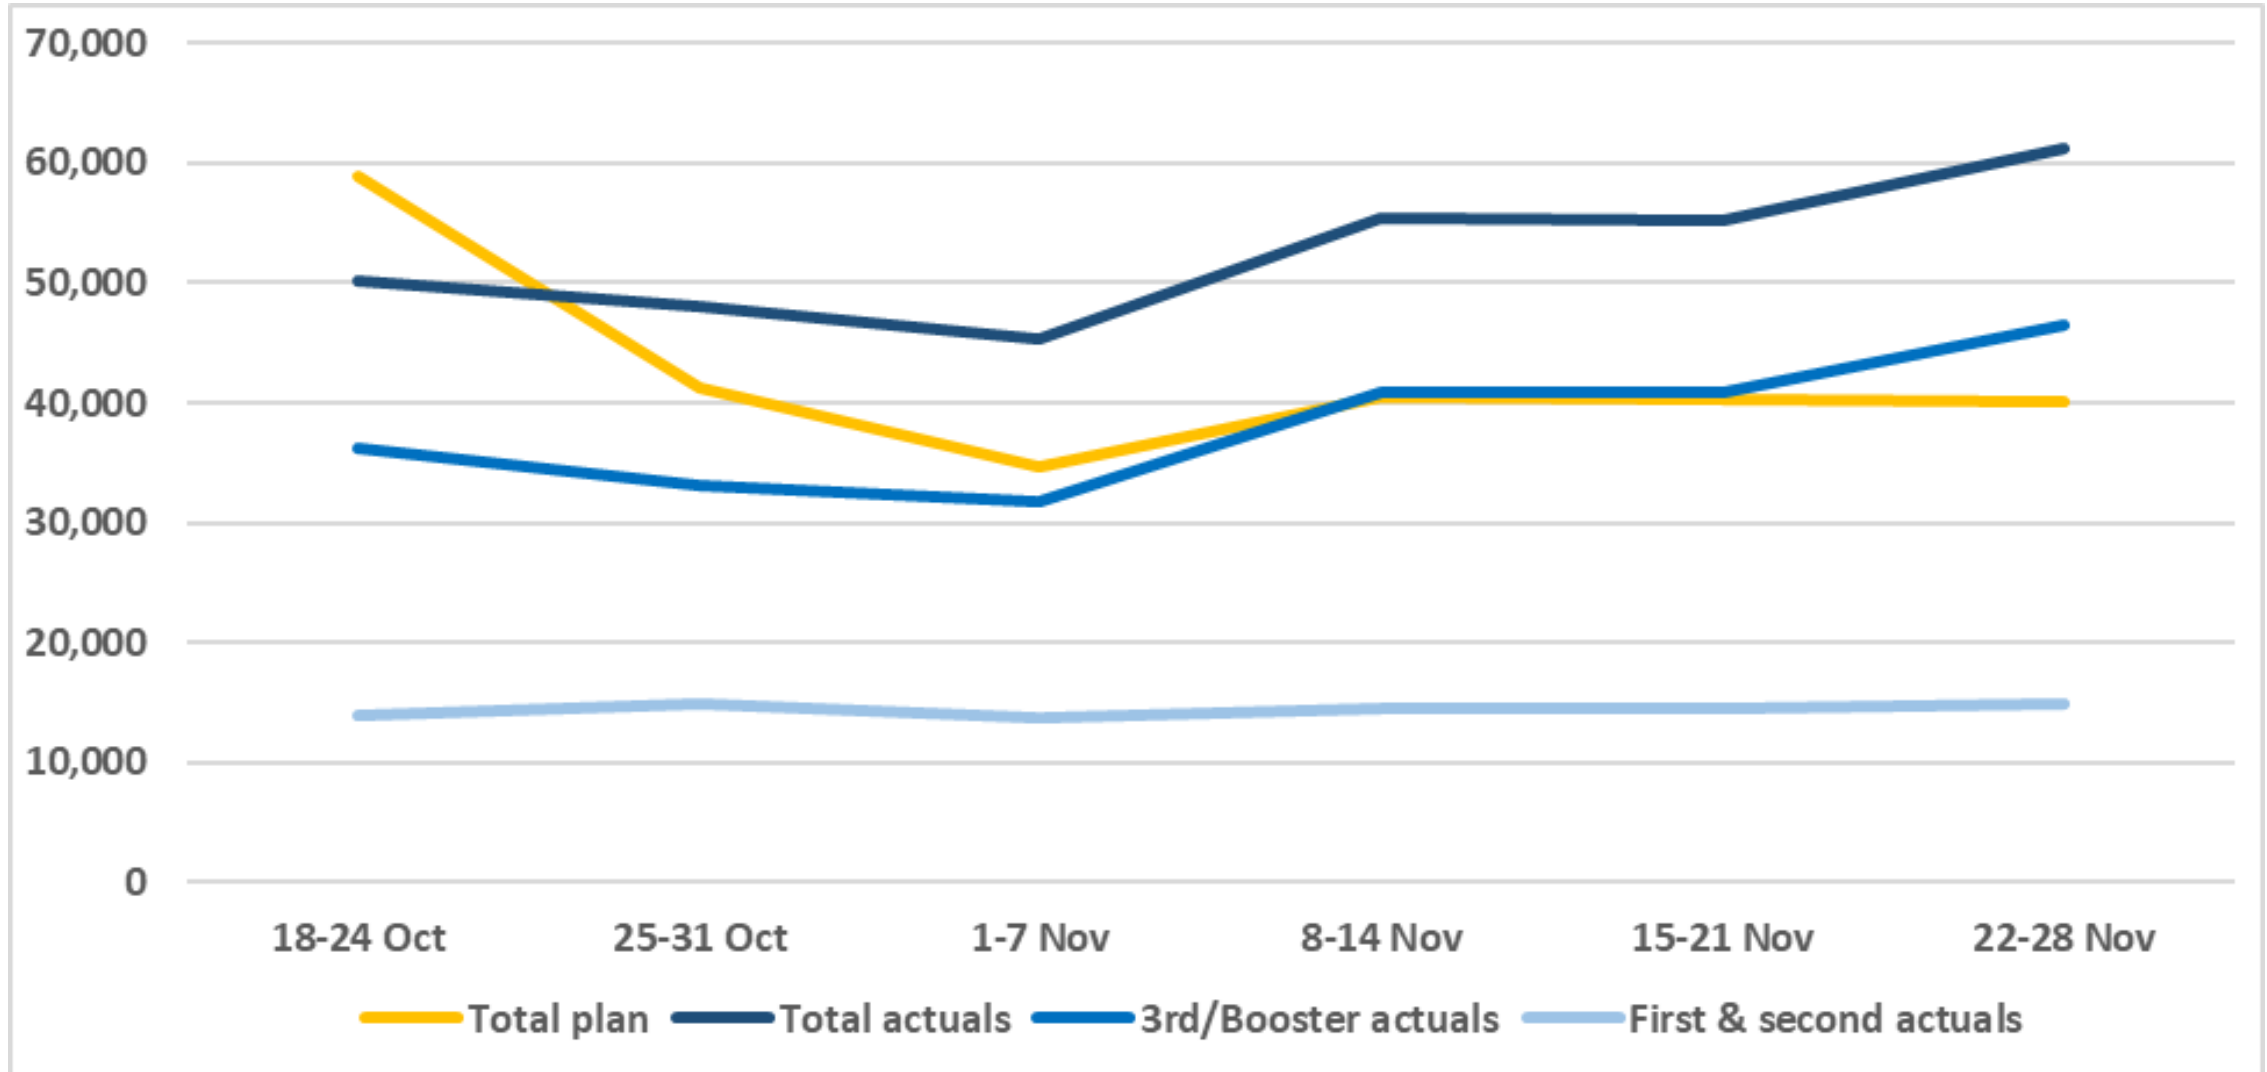

- 69% of care home residents have received boosters.
- 70% of care home residents have received flu immunisations
- 87% of housebound patients have received a second dose.
- 48% of eligible housebound patients have received boosters.
- 56% of pregnant women have received a first dose which is now in line with the general population aged 18-39
- Double-dosed care home staff increased by 0.7% to 95.4% and 0.9% are medically exempt.

Key challenges

- The delay in mobilising e-consent meant that the 12-15 programme started 2 weeks late.
- The requirement to establish an out-of-school vaccination offer for 12-15 year olds will create additional workforce pressures in the system.
- The re-establishment of Hospital Hubs has reduced the number of staff available for outreach clinics.
- 81% of COVID-19 positive patients admitted to critical care in NE London were not vaccinated.
