

Strategic Planning Committee 18 August 2022

Subject:

Quarterly Planning Performance Update Report.

Report Authors:

Simon Thelwell, Head of Strategic Development Maria Bailey, Head of Development Management

1 BACKGROUND

- 1.1 This quarterly report produces a summary of performance on planning applications/appeals and planning enforcement for the previous quarter, April to June 2022.
- 1.2 Details of any planning appeal decisions in the quarters where committee resolved to refuse planning permission contrary to officer recommendation are also given.
- 1.3 The Government has set performance targets for Local Planning Authorities, both in terms of speed of decision and quality of decision. Failure to meet the targets set could result in the Council being designated with applicants for planning permission being able to choose not to use the Council for determining the application

2 **RECOMMENDATION**

That the report be noted.

3 QUALITY OF PLANNING DECISIONS

3.1 In accordance with the published government standards, quality performance with regard to Major (10 or more residential units proposed or 1000+ sq m new floorspace or site area greater than 0.5 hectares), County Matter (proposals

involving minerals extraction or waste development) and Non-Major applications are assessed separately. If more than 10% of the total decisions in each category over the stated period were allowed on appeal, the threshold for designation would be exceeded. Due to the fact that 10% of the number of non-major decisions made exceeds the total number of appeals, there is no chance of designation so the performance against the non-major target will not be published in this report, although it will still be monitored by officers.

3.2 In December 2020, the then MHCLG announced that there would be two periods of assessment for the purposes of designation:

- decisions between 1 April 2018 and 31 March 2020, with subsequent appeal decisions to December 2020 (as previously reported, the Council is not at risk of designation for this period).

- decisions between 1 April 2019 and 31 March 2021, with subsequent appeal decisions to December 2021 (as previously reported, the Council is not at risk of designation for this period).

- 3.3 Although, no announcements regarding further periods for assessment have been made, it is considered that monitoring of the next rolling two year assessment periods should take place – this would be decisions between 1 April 2020 and 31 March 2022 with subsequent appeal decisions to December 2022 and decisions between 1 April 2021 and 31 March 2023 with subsequent appeal decisions to December 2023.
- 3.4 The current figures for April 2020 to March 2022 are:

Total number of planning decisions over period: 68 Number of appeals allowed: 1 % of appeals allowed: 1.5% Appeals still to be determined: 2 Refusals which could still be appealed: 1

County Matter Applications:

Total number of planning decisions over period: 1 Number of appeals allowed: 0 % of appeals allowed: 0% Appeals still to be determined: 0 Refusals which could still be appealed: 0

- 3.5 Based on the above, there is no risk of designation for this period.
- 3.6 The current figures for April 2021 to March 2023 are:

Total number of planning decisions over period: 47

Number of appeals allowed: 0 % of appeals allowed: 0% Appeals still to be determined: 2 Refusals which could still be appealed: 3

County Matter Applications:

Total number of planning decisions over period: 2 Number of appeals allowed: 0 % of appeals allowed: 0% Appeals still to be determined: 0 Refusals which could still be appealed: 0

- 3.7 Due to the low number of decisions that we take that are majors or county matters, any adverse appeal decision can have a significant effect on the figure. Based on the above, it is considered that at this time there is a risk of designation. The figure will continue to be carefully monitored.
- 3.8 As part of the quarterly monitoring, it is considered useful to provide details of the performance of appeals generally and summarise any appeal decisions received where either the Strategic Planning Committee/Planning Committee resolved to refuse planning permission contrary to officer recommendation. This is provided in the tables below.

)
ŗ

Officer Comment – As this is the first quarter, the average for the year is 24% appeals allowed which is above what has been the case in previous years and when benchmarked against the national and London average. In terms of benchmarking, the national average for the same quarter was 31%, with the London average being 32%. Appeal decisions are carefully monitored for any particular trends with appropriate advice to officers as necessary.

Adverse Costs Decisions - None

Anneal Decisions Anr- Jun 2022

Appeal Decisions where Committee Decision Contrary to Officer Recommendation

Total Number of Appeal Decisions -	1
Appeals Allowed -	1
Appeals Dismissed -	0
% Appeals Allowed -	100%

Appeal Decisions Apr-Jun 2022				
	Decision by Committee Contrary to Officer Recommendation			
Date of Committee	Application Details	Summary Reason for Refusal	Appeal Decision	Summary of Inspectors Findings
1 Jul 21 – Planning Committee	P0450.21 145A Chase Cross Road, Romford Variation of condition no. 8 of planning permission P0729.99 dated 07/08/1999 (meeting room) to extend hours of use to Monday to Friday 12:00- 19:30, Saturday, Sunday and Bank Holidays12:00- 17:30	Cumulative impact of extending hours resulting in greater intensity of use resulting in noise, disturbance and light pollution, harmful to neighbouring residential amenity.	Allowed	The hours applied for are during the day and would be unlikely to cause significant disturbance. However, it would be reasonable to grant temporary permission for an 18 month period to monitor any impact.

4 SPEED OF PLANNING DECISIONS

4.1 In accordance with the published government standards, speed of decision applies to all major and non-major development applications, with the threshold for designation set as follows:

Speed of Major Development (and County Matters) – 60% of decisions within timescale (13 or 16 weeks or such longer time agreed with the applicant)

Speed of Non-Major Development - 70% of decisions within timescale (8 weeks or such longer time agreed with the applicant)

- 4.2 In December 2020 MHCLG announced that there would be two periods assessed for the purposes of designation:
 - Decisions made between October 2018 and September 2020 (as previously reported, the Council is not at risk of designation for this period)
 - Decisions made between October 2019 and September 2021 (as previously reported, the Council is not at risk of designation for this period)

- 4.3 Although, no announcements regarding further periods for assessment have been made, it is considered that monitoring of the next rolling two year assessment period should take place this would be decisions between 1 October 2020 and 30 September 2022.
- 4.4 Performance to date on these is as follows:

October 2020 to June 2022 (to date)

Major Development (60 out of 62) –97% in timeCounty Matter (2 out of 2) –100% in timeNon-Major Decisions – (3686 out of 3873)95% in time

- 4.5 The Council is currently not at risk of designation due to speed of decisions. The figure for future periods will continue to be monitored.
- 4.6 It is considered useful to provide some comparison on speed of decision on Major and Non-Major decisions with other London Boroughs. Obtaining directly comparable benchmarking data for the above period is not possible. However, comparison data on speed of decision for the year ending December 2021 is available and set out below. Performance in Havering is generally good compared to other boroughs for both measures.

Borough	Major In Time	Rank - Majors	Minor and Others In Time	Rank - Minors and Others
