Re-Review of license hours for Array.

Since Array has opened living next door to it has been horrendous with the noise of the loud music the people in the car park when they are leaving and cars beeping their hooters and slamming their car doors until the early hours. Bottles and cans are left in the greenery outside and have to be picked up regularly as well as litter. Parking is horrendous and dangerous as the customers just park anywhere even across peoples driveways.

The hours that they are open until are not appropriate for a residential area.

Because of the hours that they are open until and the noise that the clients make when leaving Array I can't go to bed until after 1am and then have to use a white noise machine to try to dull the noise of the car doors

slamming the revving of the cars as they are leaving and the drunken screams swearing and shouting of the ones waiting for cabs in the carpark. It makes me so anxious having to live with these disturbances as I live alone.

Also no one was given the chance to comment on the application on the 27<sup>th</sup> March 2020 recorder publication as we did not know about this and would have written in and opposed the application had covid not come along.

B Hale.

To Havering Licensing Team.

I have been asked to forward the attached letter on behalf of a frightened and worried neighbour.

Please find attached a letter in support of the licence review of Array, 91 Shepherds Hill.

The author of this letter is an elderly widower who lives close to Array, and is too scared to put her name and address on it as she has previously been threatened by one of the owners of Array.

In order for her letter to be included in the licence review, the lady has asked that I verify her name through councillor Darren Nise, whose name appears on the review, or through Julia Lopez MP with whom there has been recent communication.

She asks that no other parties are told her name and address for fear of retribution from the owner of Array.

Darren Leonard, 2 Phillida Rd, Harold Wood.

To Whom it May Concern - Howenig Council

Dear Sir/Madam,

I am a resident of Shepherds Hill, Hand Wood, and am writing in regard to problems experienced appertaining to the Arroy restaurant situated on Shepherds Hill.

- 1) Licensing Hours. The closure time at present is 1.15 am. We were told when this premises was becoming a restaurant/public house, that people who were not coming to eat, would not be allowed in. Dining last orders 10.30. Cars are turning up at 11.30/12.00 am. What public house closes at 1.15. This premises is a night club.
- 2) Therefore at 1.15/1.30 am Noise from people leaving the club - i.e. shouting, car doors opening and banging shut causing sleep disturbance.
- 3) Vehicles arriving, not being able to enter as car park is full. Hooting, with people in cars trying to either move up or down the road. Again - noise!
- 4) The parking up and down the road - sometimes along peoples' driveways.

I would ask you, therefore, on reading the above, if you would seriously consider reviewing the licensing hours and hopefully in line with those of a public house as when Arroy was The Shepherd's Dog.

Dear Sir,

**The Array Restaurant – Shepherds Hill, Harold Wood**

We are writing to complain about the unsociable hours kept by the above establishment. We understand that they have a licence until 1.00 a.m. which means that customers are leaving their premises in the early hours of the morning and causing the neighbours disturbance and distress.

We think it is unreasonable to be woken up in the early hours of the morning with anti-social behaviour from people leaving the Array. They are calling out to one another, talking loudly, slamming car doors and beeping car horns. etc.

The parking is also creating a big problem as they park in front of our property, leaving just a narrow gap in which to turn into our driveway. Cars are also parked on both sides of the road which leaves only a narrow space for traffic to pass through on a busy road, which is very dangerous.

We cannot understand why a licence has been granted to The Array for such anti-social hours when it is situated in the centre of a residential area and should be grateful if you would investigate this for us.

Yours faithfully,

Robyn Pyle

RECEIVED  
Dear Sir,

I have lived on Shepherds Hill for 66 years and have obviously seen many changes. Only once in that time has there been a problem with the then Shepherd + Dog when locals have had to involve local councillors and residents. The problem now is a completely different situation.

How did the new owner manage to get a licence to extend hours when we were in a period of "lock down" and residents knew nothing about it? The new owner had decided to extend the building on the side, at the back and in the front therefore reducing parking spaces. So now not only do we have cars parking over the "cross-overs" to our houses, we also have people shouting and hooting horns at 1.30 in the morning. I was recently woken at nearly 2.00 one morning and saw two drunken women staggering and shouting going up the hill in the middle of the road. Where their transport was I do not know.

I will be very interested to hear from you how the Array was able to extend their hours during this period.

As you will know this is a very rural area  
with no commercial buildings but also it is  
Green Belt and with "ribbon development" only,  
I want to hear.
