Please refer to the Guidance in Appendix 1 on how to complete this form.

About your activity

1	Title of activity	Council Tax Support Scheme 2025		
2	Type of activity	This is a scheme which provides assistance to people on low incomes to help them pay their Council Tax.		
3	Scope of activity	<p>The Council Tax Support (CTS) Scheme helps many working age people on low incomes pay their Council Tax bills.</p> <p>While Government funding is insignificant, the Council is committed to maintaining the current 2024 CTS scheme in 2025.</p> <p>The proposed scheme will continue to protect pensioners by law who will get the same level of council tax support as they do now which be up to 100%.</p> <p>Disabled working age applicants can have up to 80% off their Council Tax Bill. Working age applicants can have up to 75% off their Council Tax bill.</p> <p>It is proposed the CTS 2025/26 Scheme remains unchanged for working age and pension age claimants in 2025/26.</p>		
4a	Are you changing, introducing a new, or removing a service, policy, strategy or function?	No	If the answer to <u>any</u> of these questions is 'YES', please continue to question 5.	If the answer to <u>all</u> of the questions (4a, 4b & 4c) is 'NO', please go to question 6.
4b	Does this activity have the potential to impact (either positively or negatively) upon people (9 protected characteristics)?	Yes		
4c	Does the activity have the potential to impact (either positively or negatively) upon any factors which determine	No		

	people's health and wellbeing?			
5	If you answered YES:	Please complete the EqHIA in Section 2 of this document. Please see Appendix 1 for Guidance.

2. The EqHIA – How will the strategy, policy, plan, procedure and/or service impact on people?

Background/context:
<p>The Council has a statutory obligation to provide a local Council Tax Support Scheme under the Local Government Act 2012.</p> <p>The Council proposes to maintain the Council Tax Support (CTS) Scheme in place since April 2022/23 for 2025/26. The scheme provides assistance to people on low incomes to help them pay their Council Tax.</p>

Who will be affected by the activity?
<p>The 2025 scheme will continue to protect pensioners who will get the same level of Council Tax Support as they do now. This can provide up to 100% off their Council Tax bill.</p> <p>Disabled working age applicants can have up to 80% off their Council Tax Bill. Working age applicants can have up to 75% off their Council Tax bill.</p> <p>At 31 December 2024, 8,293 working-age claimants and 4,918 pensionable age claimants were in receipt of Council Tax Support.</p> <p>Support remains in place through the Council Tax Discretionary policy for those who suffer hardship. Support workers and advisors continue to direct customers where appropriate to the online application which is available on the Havering website.</p> <p>In terms of the number of Council Tax Support Claimants and their household and personal status, the overall total, compared to last year, has decreased from 13,585 to 13,211 (Dec 23 to Dec 24), recognising fewer applications due to the end of the pandemic and the opening up of the economy.</p>

Equality & Health Impact Assessment (EqHIA)</p> <p>London Borough of Havering has the oldest population in London with a median age of approximately 40 years old, as recorded in the 2011 census. Legislation means that the 2025/26 scheme will continue to protect pensioners by law. Consequently, the pension age scheme and the working age scheme have become more disparate overtime.</p> <p>From 2011 to 2016, Havering experienced the largest net inflow of children across all London boroughs. 4,580 children settled in the borough from another part of the United Kingdom during this six year period.</p> <p>Within the scope of the 2025 scheme, there continues to be a Council Tax Discretionary policy to enable the Council to consider cases of hardship which will help mitigate any negative impacts.</p> <p style="text-align: right;"><i>*Expand box as required</i></p>

<p>Evidence:</p> <p>At present approximately 63% of Council Tax Support claimants are working age and 37% are pension age. For comparison, the working age population (18-64 years) in Havering is 76% and the pension age population is 24%.</p> <p>A full range of online services are available including a Text relay service: 18001 01708 434343. Customers can contact the council online or by telephone to the dedicated Call Centre. Customer Services staff are able to give advice and assist. Neutral	<p>The impact of this scheme, as compared to the scheme available in 2024/25, will remain the same as in the Equality Impact Analysis prepared in October 2021. Equality & Health Impact Assessment (EqHIA)</p>
Negative	<p>Within the scope of the 2025 scheme, there continues to be a Council Tax Discretionary policy to enable the Council to consider cases of hardship which will help mitigate any negative impacts.</p> <p>The Recovery Policy also sensitively considers vulnerable persons under whom disabled CTS applicants are categorized, in the collection of Council Tax.</p>
<p>Evidence:</p> <p>In 2017, 3,506 adults (aged 18-64 years) were estimated to be living with serious physical disabilities in Havering. The estimated rate of serious physical disabilities in Havering (2,323 per 100,000 population aged 18-64 years) is similar to England but significantly higher than London average and one of the highest rates of London local authorities. The rationale for this is likely due to the relatively older population in Havering compared to other London boroughs.</p>	

In terms of Council Tax Support, disabled claimants are defined as people who have a disability income that entitles them to one of the following premiums: disability, severe disability, enhanced disability, disabled child and/or carer when calculating their benefit. Approximately 58% of working age Council Tax Support claimants meet the above definition, much higher than the overall population average.

Disabled people are historically disadvantaged and face greater barriers when accessing (information about) services and therefore disabled households are considered to be more vulnerable than other households. Disabled people who are unable to work receive higher levels of state benefits and while based on the proposals they will be subject to the 20% liability reduction, disabled working age claimants are likely to have a higher income than other unemployed, working age claimants whose council tax support will also be reduced.

A full range of online services are available and a Text relay service exists: 18001 01708 434343. Customers can contact the council online or by telephone to the dedicated service Call Centre. Details of AccessAble are available on the council's website. Customer Services staff are able to advise and assist, as can Havering's Community Learning Disability Team (CLDT) which assists adults with a learning disability and their carers. The Language Shop also exists providing the following services:

- Proofing and editing of translated documents;
- Reproduction of print material in large print;
- Reproduction of print material in Braille;
- Audio and transcription services;
- Subtitling;

Reproduction of information in “Easy Read” (simplifying information using pictures and plain English);
 Certification and authenticity checks of documents

Overall impact:

There are no changes proposed to the CTS 2025/26 Scheme.

The impact of this scheme, as compared to the scheme available in 2024/25 will remain the same as in the Equality Impact Analysis prepared in October 2021. [Equality & Health Impact Assessment \(EqHIA\)](#)

Due to the fact that only one claim is submitted per household, it is difficult to fully consider the implications the proposals will have on this protected characteristic.

However, equalities monitoring indicates that the majority of claims (68%) are made by females (married and single titles) compared with males. We also know that lone parents, part-time workers and carers are more likely to be women.

The proposals are therefore considered to have a disproportionate impact on women.

Within the scope of the 2025 scheme, there continues to be a Council Tax Discretionary policy to enable the Council to consider cases of hardship which will help mitigate any negative impacts
 The Council has considered the indirect discrimination and the legitimate aim of balancing the budget in the context of significant savings required. We also consider it is proportionate because the Council’s budget situation is such that there are no feasible alternatives. Since 2013, Government grant for Council Tax Support was withdrawn and the scheme has been funded by the Council from

its own resources.

Protected Characteristic - Ethnicity/race: Consider the impact on different ethnic groups and nationalities

<i>Please tick (✓) the relevant box:</i>		Overall impact: There are no changes proposed to the CTS 2025/26 Scheme. The impact of this scheme, as compared to the scheme available in 2024/25, will remain the same as in the Equality Impact Analysis prepared in October 2021. Equality & Health Impact Assessment (EqHIA) Our data shows that BME claimants are slightly over-represented amongst working age claimants receiving Council Tax Support. There could be a negative impact of the proposals on people from Black and Minority Ethnic (BME) groups. This could imply that BME groups experience more difficulty in finding employment. Support is in place through the Council Tax Discretionary policy for those who suffer hardship as a result of these proposals in order to mitigate any negative impacts. Providing comprehensive translation and interpretation services is becoming increasingly important in light of the significant demographic changes occurring across the Borough. Havering's non-English speaking population has grown steadily. It is estimated that the percentage of adults is greater than 10% (last Census only recording if English as main language in a household) Interpretation, translation or alternative formats can be obtained from The Language Shop which includes: Face to face interpreting (Spoken Language Interpreting, this can be simultaneous or consecutive); Telephone interpreting (connecting to a spoken language interpreter over the telephone); Multilingual telephone information service; Translation (to have written documents translated from the source language to the target language):

¹ The GLA define BAME differently to the ONS. The GLA does not include a 'White Other' Group. Instead they have one category 'White' that includes 'White British' and 'White Other'.

From the data provided above, it would appear that there is a disproportionate impact on BME claimants. 83.6% of Havering's population are defined as White, compared to 74.2% of benefit claimants who define themselves as White (including 'White: Other').

Evidence:

- The average gross income per household in Havering (£44,430, as measured in 2012/13) is low in comparison to the London average (£51,770) and slightly higher than the England average (£39,557).
- 77% of households in Havering have at least one car and compared to other local authorities in London, Havering has the second highest proportion of households (32.8%) with 2 or more cars.
- Majority of children in Havering are not poor, but around 8,800 live in income-deprived households. Gooshays and Heaton wards have the highest proportion of children living in poverty.
- About 77.9% of working age residents in Havering were in employment between April and June 2018. Overall employment rate in Havering is higher than London (74.6%) and England (75.9%)
- The proportion of working age residents in Havering claiming out-of-work benefits (6.8%) is significantly lower than England (8.4%).

Health & Wellbeing Impact: Consider both short and long-term impacts of the activity on a person’s physical and mental health, particularly for disadvantaged, vulnerable or at-risk groups. Can health and wellbeing be positively promoted through this activity? Please use the Health and Wellbeing Impact Tool in Appendix 2 to help you answer this question.

<i>Please tick (✓) all the relevant boxes that apply:</i>		Overall impact:
Positive	<input checked="" type="checkbox"/>	There are no changes proposed to the CTS 2025/26 Scheme.
Neutral	<input type="checkbox"/>	The impact of this scheme, as compared to the scheme available in 2024/25, will remain the same as in the Equality Impact Analysis prepared in Oct 2021 Equality & Health Impact Assessment (EqHIA)
Negative	<input type="checkbox"/>	Research has shown there is a clear correlation between poverty and health. Poverty can affect the health of people at all ages. In infancy, it is associated with a low birth weight, shorter life expectancy and a higher risk of death in the first year of life. Children living in poverty are more likely to suffer from chronic diseases and diet-related problems. Entitlement to Council Tax Support assists low income households to

		pay their council tax bill which in turn contributes to financial wellbeing and alleviates stress and poor mental health

3. Outcome of the Assessment

The EqHIA assessment is intended to be used as an improvement tool to make sure the activity maximises the positive impacts and eliminates or minimises the negative impacts. The possible outcomes of the assessment are listed below and what the next steps to take are:

Please tick (✓) what the overall outcome of your assessment was:

✓	1. The EqHIA identified <u>no significant concerns</u> OR the identified <u>negative concerns</u> have already been <u>addressed</u>	➔	Proceed with implementation of your activity
	2. The EqHIA identified some <u>negative impact</u> which still needs to be <u>addressed</u>	➔	COMPLETE SECTION 4: Complete action plan and finalise the EqHIA
	3. The EqHIA identified some <u>major concerns</u> and showed that it is <u>impossible to diminish negative impacts</u> from the activity to an acceptable or even lawful level	➔	Stop and remove the activity or revise the activity thoroughly . Complete an EqHIA on the revised proposal.
