Engineering Services, Highways - StreetCare
Highway Schemes Applications Schedule

Highways Advisory Committee
12th November 2013

| Item Ref | Location | Description | Officer Advice | Funding Source | Likely Budget | Scheme Origin/ Request from | Date Requested/ Placed on List | CRM / Contact |
|---|-------------------------------|--|---|----------------|---|---|--------------------------------|--------------------------------|
| SECTION A - Highway scheme proposals with funding in place | | | | | | | | |
| H1 | Waterloo Road | Signal-controlled crossing between Oldchurch Road roundabout and railway, linked to developer contributions for the development of the former Oldchurch Hospital site | Streetcare receiving numerous complaints about a lack of safe walking route between new development sites and Town Centre. Pedestrians often observed walking in carriageway under railway bridge and climbing over pedestrian guardrail. | S106 | TBC (depends on outcome of feasibility) | Mark Philpotts LBH Streetcare | 16/10/2013 | N/A |
| H2 | Squadrons Approach | Provide 9:30am to 4pm, Monday to Friday, parking restrictions from junction with Franklin Road to south-western end of Squadrons Approach to facilitate new turning head for coaches serving new visitor centre. | In support of planning application P1138.12. Restrictions will enable weekday use of new turning head for school visits to new visitor centre, recommend proceed to consultation. | LBH Parks | £1.5k | Mark Philpotts LBH Streetcare | 04/11/2013 | N/A |
| SECTION B - Highway scheme proposals without funding available | | | | | | | | |
| H2 | Havering Road, near Moray Way | Request to widen existing pedestrian refuge to better accommodate parents and children walking to school or provide a controlled crossing. | A wider pedestrian refuge would in turn require the carriageway widened to accommodate it; if a zebra crossing were considered, a wider refuge would be recommended. | None | £25k | Resident via Cllr Misir and Andrew Rosindell MP | 15/10/2013 | Cllr Misir Andrew Rosindell MP |

| Item Ref | Location | Description | Officer Advice | Funding Source | Likely Budget | Scheme Origin/ Request from | Date Requested/ Placed on List | CRM / Contact |
|--|--|--|---|----------------|---------------|-----------------------------|--------------------------------|---------------|
| H3 | Park Lane | Make street one-way from Hornchurch Road to Brentwood Road to deal with 2-way traffic "facing off" because of parking on both sides. Resident reports damage to parked vehicles. | One-way streets can increase traffic speed as drivers do not have to contend with oncoming traffic. Some pedestrians find one-way traffic confusing. Romford to Rainham cycle route will be severely impacted. Traffic signals at Hornchurch Road would need to be changed. | None | £20+ | Resident | 21/10/2013 | ENQ-0127844 |
| H4 | Butts Green Road, Emerson Park - Outside Tesco store | Remove footway build-out from bus stop outside Tesco Store. | Build-out is to make bus stop accessible and removal would prevent stop being accessible. Works to site funded by Tesco stores through S106 contribution and risks Tesco claiming for a refund. Associated with a loading bay which should be retained for planning condition associated with Tesco site. | None | £4k | Cllr Robert Benham | 24/10/2013 | N/A |
| SECTION C - Highway scheme proposals on hold for future discussion (for Noting) | | | | | | | | |

|-----------------|-----------------|--|--|-----------------------|----------------------|------------------------------------|---------------------------------------|----------------------|
| H5 | Appleton Way | Request for zebra crossing on speed table between car park and High Street alleyway / traffic calming as people are finding it difficult to cross because of speed of drivers. | Feasible but not funded. Deferred from 15th October 2013 (H2). Deferred awaiting staff resources for pedestrian flow counts and confirmation of injury collision rate. | None | £15k | Resident | 25/09/2013 | ENQ-0123013 |
